

B24032. SEX BY INDUSTRY AND MEDIAN EARNINGS IN THE PAST 12 MONTHS (IN 2008 INFLATION-ADJUSTED DOLLARS) FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER - Universe: CIVILIAN EMPLOYED POPULATION 16 YEARS AND OVER WITH EARNINGS

Data Set: [2008 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska	
	Estimate	Margin of Error
Male:		
Agriculture, forestry, fishing and hunting, and mining:	42,323	+/-1,595
Agriculture, forestry, fishing and hunting	66,825	+/-13,900
Mining, quarrying, and oil and gas extraction	50,198	+/-15,457
Construction	72,332	+/-10,712
Manufacturing	46,324	+/-2,176
Wholesale trade	32,459	+/-8,635
Retail trade	46,154	+/-7,976
Transportation and warehousing, and utilities:	28,129	+/-2,217
Transportation and warehousing	52,287	+/-4,330
Utilities	50,500	+/-2,747
Information	66,578	+/-12,478
Finance and insurance, and real estate and rental and leasing:	52,220	+/-14,664
Finance and insurance	41,466	+/-9,122
Real estate and rental and leasing	61,860	+/-14,813
Professional, scientific, and management, and administrative and waste management services:	36,095	+/-11,330
Professional, scientific, and technical services	51,508	+/-7,420
Management of companies and enterprises	70,819	+/-7,255
Administrative and support and waste management services	94,345	+/-13,557
Educational services, and health care and social assistance:	32,705	+/-4,006
Educational services	43,987	+/-4,428
Health care and social assistance	43,964	+/-4,127
Arts, entertainment, and recreation, and accommodations and food services	44,014	+/-8,360
Arts, entertainment, and recreation	15,452	+/-4,619
Accommodation and food services	15,496	+/-3,222
Other services except public administration	15,408	+/-7,904
Public administration	31,418	+/-3,969
Female:	59,323	+/-5,639
Agriculture, forestry, fishing and hunting, and mining:	30,252	+/-997
Agriculture, forestry, fishing and hunting	42,819	+/-13,601
Mining, quarrying, and oil and gas extraction	29,918	+/-9,767
Construction	52,073	+/-26,995
Manufacturing	36,628	+/-7,179
Wholesale trade	21,666	+/-6,582
Retail trade	38,629	+/-7,400
Transportation and warehousing, and utilities:	20,697	+/-1,157
Transportation and warehousing	29,891	+/-3,393
Utilities	29,746	+/-4,579
Information	30,169	+/-17,624
Finance and insurance, and real estate and rental and leasing:	46,957	+/-7,433
Finance and insurance	35,345	+/-4,478
Real estate and rental and leasing	36,886	+/-5,187
Professional, scientific, and management, and administrative and waste management services:	17,716	+/-9,854
Professional, scientific, and technical services	35,048	+/-4,413
Management of companies and enterprises	40,537	+/-4,490
Administrative and support and waste management services	31,679	+/-2,374
Educational services, and health care and social assistance:	30,886	+/-3,791
Educational services	31,958	+/-1,938
Health care and social assistance	32,345	+/-6,231
Arts, entertainment, and recreation, and accommodations and food services	31,868	+/-1,858
Arts, entertainment, and recreation	14,490	+/-2,996
Accommodation and food services	16,187	+/-4,900
Other services except public administration	13,561	+/-3,315
Public administration	22,852	+/-7,363

Source: U.S. Census Bureau, 2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Industry codes are 4-digit codes and are based on the North American Industry Classification System 2007. The Industry categories adhere to the guidelines issued in Clarification Memorandum No. 2, "NAICS Alternate Aggregation Structure for Use By U.S. Statistical Agencies," issued by the Office of Management and Budget.

While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
