

B23002C. SEX BY AGE BY EMPLOYMENT STATUS FOR THE POPULATION 16 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: AMERICAN INDIAN AND ALASKA NATIVE ALONE POPULATION 16 YEARS AND OVER

Data Set: [2008 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

Alaska		
	Estimate	Margin of Error
Total:	63,240	+/-3,031
Male:	30,093	+/-2,248
16 to 19 years:	3,509	+/-587
In labor force:	1,190	+/-390
In Armed Forces	0	+/-240
Civilian:	1,190	+/-390
Employed	890	+/-401
Unemployed	300	+/-161
Not in labor force	2,319	+/-483
20 to 24 years:	3,720	+/-705
In labor force:	2,809	+/-651
In Armed Forces	0	+/-240
Civilian:	2,809	+/-651
Employed	2,089	+/-518
Unemployed	720	+/-349
Not in labor force	911	+/-264
25 to 54 years:	16,363	+/-1,293
In labor force:	12,647	+/-1,152
In Armed Forces	61	+/-87
Civilian:	12,586	+/-1,154
Employed	9,942	+/-1,216
Unemployed	2,644	+/-552
Not in labor force	3,716	+/-649
55 to 64 years:	3,979	+/-612
In labor force:	2,312	+/-498
In Armed Forces	0	+/-240
Civilian:	2,312	+/-498
Employed	1,839	+/-404
Unemployed	473	+/-234
Not in labor force	1,667	+/-458
65 to 69 years:	732	+/-217
In labor force:	136	+/-100
Employed	77	+/-71
Unemployed	59	+/-70
Not in labor force	596	+/-215
70 years and over:	1,790	+/-419
In labor force:	94	+/-107
Employed	94	+/-107
Unemployed	0	+/-240
Not in labor force	1,696	+/-432
Female:	33,147	+/-1,726
16 to 19 years:	3,436	+/-586
In labor force:	1,271	+/-511
In Armed Forces	0	+/-240
Civilian:	1,271	+/-511
Employed	1,108	+/-514
Unemployed	163	+/-100
Not in labor force	2,165	+/-518
20 to 24 years:	3,924	+/-652
In labor force:	2,889	+/-604
In Armed Forces	0	+/-240
Civilian:	2,889	+/-604
Employed	2,339	+/-583
Unemployed	550	+/-256
Not in labor force	1,035	+/-348

25 to 54 years:	17,862	+/-1,163
In labor force:	13,074	+/-1,121
In Armed Forces	0	+/-240
Civilian:	13,074	+/-1,121
Employed	11,562	+/-1,130
Unemployed	1,512	+/-477
Not in labor force	4,788	+/-798
55 to 64 years:	4,273	+/-626
In labor force:	1,813	+/-435
In Armed Forces	0	+/-240
Civilian:	1,813	+/-435
Employed	1,583	+/-414
Unemployed	230	+/-182
Not in labor force	2,460	+/-575
65 to 69 years:	1,603	+/-542
In labor force:	104	+/-77
Employed	86	+/-73
Unemployed	18	+/-34
Not in labor force	1,499	+/-525
70 years and over:	2,049	+/-593
In labor force:	45	+/-63
Employed	22	+/-40
Unemployed	23	+/-47
Not in labor force	2,004	+/-587

Source: U.S. Census Bureau, 2008 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Employment and unemployment estimates may vary from the official labor force data released by the Bureau of Labor Statistics because of differences in survey design and data collection. For guidance on differences in employment and unemployment estimates from different sources go to [Labor Force Guidance](#).

Armed Forces data are not shown for the population 65 years and over.

The Census Bureau introduced an improved sequence of labor force questions in the 2008 ACS questionnaire. Accordingly, we recommend using caution when making labor force data comparisons from 2008 or later with data from prior years. For more information on these questions and their evaluation in the 2006 ACS Content Test, see the "Evaluation Report Covering Employment Status" at http://www.census.gov/acs/www/AdvMeth/content_test/P6a_Employment_Status.pdf, and the "Evaluation Report Covering Weeks Worked" at http://www.census.gov/acs/www/AdvMeth/content_test/P6b_Weeks_Worked_Final_Report.pdf. Additional information can also be found at <http://www.census.gov/hhes/www/laborfor/laborforce.html>.

While the 2008 American Community Survey (ACS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities. The 2008 Puerto Rico Community Survey (PRCS) data generally reflect the November 2007 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in PRCS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An "-" entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An "-" following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An "+" following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An "*****" entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An "*****" entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
