

B17010C. POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY PRESENCE OF RELATED CHILDREN UNDER 18 YEARS BY AGE OF RELATED CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE) - Universe: FAMILIES WITH A HOUSEHOLDER WHO IS AMERICAN INDIAN AND ALASKA NATIVE ALONE

Data Set: [2009 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

View the [collapsed version of this table](#). Geographies missing from this table are listed below the table.

	Alaska	
	Estimate	Margin of Error
Total:	17,700	+/-1,385
Income in the past 12 months below poverty level:	2,430	+/-427
Married-couple family:	689	+/-190
With related children under 18 years:	677	+/-187
Under 5 years only	71	+/-63
Under 5 years and 5 to 17 years	450	+/-150
5 to 17 years only	156	+/-90
No related children under 18 years	12	+/-20
Other family:	1,741	+/-368
Male householder, no wife present:	551	+/-257
With related children under 18 years:	456	+/-243
Under 5 years only	46	+/-46
Under 5 years and 5 to 17 years	184	+/-147
5 to 17 years only	226	+/-171
No related children under 18 years	95	+/-61
Female householder, no husband present:	1,190	+/-270
With related children under 18 years:	1,172	+/-263
Under 5 years only	248	+/-185
Under 5 years and 5 to 17 years	523	+/-156
5 to 17 years only	401	+/-163
No related children under 18 years	18	+/-31
Income in the past 12 months at or above poverty level:	15,270	+/-1,326
Married-couple family:	8,848	+/-1,095
With related children under 18 years:	5,674	+/-844
Under 5 years only	891	+/-428
Under 5 years and 5 to 17 years	1,469	+/-438
5 to 17 years only	3,314	+/-630
No related children under 18 years	3,174	+/-634
Other family:	6,422	+/-862
Male householder, no wife present:	2,393	+/-635
With related children under 18 years:	1,117	+/-396
Under 5 years only	539	+/-335
Under 5 years and 5 to 17 years	146	+/-113
5 to 17 years only	432	+/-183
No related children under 18 years	1,276	+/-507
Female householder, no husband present:	4,029	+/-689
With related children under 18 years:	2,325	+/-472
Under 5 years only	442	+/-277
Under 5 years and 5 to 17 years	416	+/-159
5 to 17 years only	1,467	+/-423
No related children under 18 years	1,704	+/-564

Source: U.S. Census Bureau, 2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget

(OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
