

B17015. POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY SOCIAL SECURITY INCOME BY SUPPLEMENTAL SECURITY INCOME (SSI) AND CASH PUBLIC ASSISTANCE INCOME - Universe: FAMILIES

Data Set: [2009 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

View the [collapsed version of this table](#). Geographies missing from this table are listed below the table.

Alaska		
	Estimate	Margin of Error
Total:	159,940	+/-3,646
Income in the past 12 months below poverty level:	9,850	+/-1,365
Married-couple family:	2,625	+/-686
With Social Security income in the past 12 months:	274	+/-181
With SSI and/or cash public assistance income in the past 12 months	75	+/-56
Without SSI or cash public assistance income in the past 12 months	199	+/-172
Without Social Security income in the past 12 months:	2,351	+/-648
With SSI and/or cash public assistance income in the past 12 months	437	+/-218
Without SSI or cash public assistance income in the past 12 months	1,914	+/-576
Other family:	7,225	+/-1,361
Male householder, no wife present:	1,319	+/-615
With Social Security income in the past 12 months:	69	+/-67
With SSI and/or cash public assistance income in the past 12 months	36	+/-44
Without SSI or cash public assistance income in the past 12 months	33	+/-41
Without Social Security income in the past 12 months:	1,250	+/-608
With SSI and/or cash public assistance income in the past 12 months	46	+/-42
Without SSI or cash public assistance income in the past 12 months	1,204	+/-614
Female householder, no husband present:	5,906	+/-1,216
With Social Security income in the past 12 months:	193	+/-134
With SSI and/or cash public assistance income in the past 12 months	97	+/-91
Without SSI or cash public assistance income in the past 12 months	96	+/-100
Without Social Security income in the past 12 months:	5,713	+/-1,211
With SSI and/or cash public assistance income in the past 12 months	1,203	+/-526
Without SSI or cash public assistance income in the past 12 months	4,510	+/-1,085
Income in the past 12 months at or above poverty level:	150,090	+/-3,688
Married-couple family:	116,518	+/-3,220
With Social Security income in the past 12 months:	20,830	+/-1,596
With SSI and/or cash public assistance income in the past 12 months	2,240	+/-598
Without SSI or cash public assistance income in the past 12 months	18,590	+/-1,473
Without Social Security income in the past 12 months:	95,688	+/-3,592
With SSI and/or cash public assistance income in the past 12 months	2,869	+/-828
Without SSI or cash public assistance income in the past 12 months	92,819	+/-3,625
Other family:	33,572	+/-2,634
Male householder, no wife present:	12,461	+/-1,669
With Social Security income in the past 12 months:	1,989	+/-585
With SSI and/or cash public assistance income in the past 12 months	147	+/-89
Without SSI or cash public assistance income in the past 12 months	1,842	+/-575
Without Social Security income in the past 12 months:	10,472	+/-1,635
With SSI and/or cash public assistance income in the past 12 months	243	+/-173
Without SSI or cash public assistance income in the past 12 months	10,229	+/-1,624
Female householder, no husband present:	21,111	+/-2,081
With Social Security income in the past 12 months:	4,211	+/-841
With SSI and/or cash public assistance income in the past 12 months	912	+/-380
Without SSI or cash public assistance income in the past 12 months	3,299	+/-787
Without Social Security income in the past 12 months:	16,900	+/-1,897
With SSI and/or cash public assistance income in the past 12 months	1,179	+/-462
Without SSI or cash public assistance income in the past 12 months	15,721	+/-1,798

Source: U.S. Census Bureau, 2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of

error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
