

B19130. AGGREGATE FAMILY INCOME IN THE PAST 12 MONTHS (IN 2009 INFLATION-ADJUSTED DOLLARS) BY FAMILY TYPE BY AGE OF HOUSEHOLDER - Universe: FAMILIES

Data Set: [2009 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE. Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

	Alaska	
	Estimate	Margin of Error
Aggregate family income in the past 12 months (in 2009 inflation-adjusted dollars):	14,767,715,700	+/-563,588,398
Married couple family (dollars):	12,611,152,800	+/-575,782,960
Householder 15 to 24 years (dollars)	203,134,000	+/-62,802,728
Householder 25 to 34 years (dollars)	1,624,061,900	+/-179,036,062
Householder 35 to 44 years (dollars)	2,643,402,800	+/-261,204,575
Householder 45 to 54 years (dollars)	3,797,852,000	+/-350,078,021
Householder 55 to 59 years (dollars)	1,851,928,900	+/-199,160,412
Householder 60 to 64 years (dollars)	1,121,402,400	+/-162,321,442
Householder 65 to 74 years (dollars)	1,009,189,900	+/-281,405,836
Householder 75 years and over (dollars)	360,180,900	+/-77,278,569
Other family (dollars):	2,156,562,900	+/-200,608,300
Male householder, no wife present (dollars):	876,378,000	+/-148,565,769
Householder 15 to 24 years (dollars)	67,038,900	+/-33,027,211
Householder 25 to 34 years (dollars)	121,411,800	+/-40,472,920
Householder 35 to 44 years (dollars)	182,144,500	+/-66,650,046
Householder 45 to 54 years (dollars)	268,858,300	+/-100,132,268
Householder 55 to 59 years (dollars)	148,060,100	+/-77,642,617
Householder 60 to 64 years (dollars)	23,410,100	+/-17,964,525
Householder 65 to 74 years (dollars)	53,926,900	+/-40,965,724
Householder 75 years and over (dollars)	11,527,300	+/-5,264,569
Female householder, no husband present (dollars):	1,280,184,900	+/-129,368,571
Householder 15 to 24 years (dollars)	81,834,200	+/-36,284,716
Householder 25 to 34 years (dollars)	218,705,700	+/-60,848,080
Householder 35 to 44 years (dollars)	285,671,600	+/-64,763,139
Householder 45 to 54 years (dollars)	347,472,400	+/-76,692,889
Householder 55 to 59 years (dollars)	103,199,800	+/-52,625,641
Householder 60 to 64 years (dollars)	57,632,400	+/-25,981,373
Householder 65 to 74 years (dollars)	115,728,200	+/-36,969,426
Householder 75 years and over (dollars)	69,940,600	+/-27,997,270

Source: U.S. Census Bureau, 2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An *** entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An **** entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An ***** entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
