

**B27001. HEALTH INSURANCE COVERAGE STATUS BY SEX BY AGE - Universe: CIVILIAN NONINSTITUTIONALIZED POPULATION**

Data Set: [2009 American Community Survey 1-Year Estimates](#)

Survey: American Community Survey

NOTE: Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the [official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties](#).

For information on confidentiality protection, sampling error, nonsampling error, and definitions, see [Survey Methodology](#).

View the [collapsed version of this table](#). Geographies missing from this table are listed below the table.

<b>Alaska</b>		
	Estimate	Margin of Error
Total:	678,081	+/-2,615
Male:	344,335	+/-2,643
Under 6 years:	32,311	+/-1,327
With health insurance coverage	27,088	+/-1,659
No health insurance coverage	5,223	+/-1,286
6 to 17 years:	61,566	+/-1,713
With health insurance coverage	53,703	+/-2,202
No health insurance coverage	7,863	+/-1,331
18 to 24 years:	41,673	+/-2,292
With health insurance coverage	25,879	+/-2,342
No health insurance coverage	15,794	+/-2,055
25 to 34 years:	48,598	+/-2,589
With health insurance coverage	29,059	+/-2,509
No health insurance coverage	19,539	+/-2,354
35 to 44 years:	42,004	+/-1,893
With health insurance coverage	28,820	+/-1,994
No health insurance coverage	13,184	+/-1,887
45 to 54 years:	52,589	+/-1,546
With health insurance coverage	40,883	+/-1,671
No health insurance coverage	11,706	+/-1,450
55 to 64 years:	41,307	+/-1,026
With health insurance coverage	35,119	+/-1,328
No health insurance coverage	6,188	+/-1,001
65 to 74 years:	16,465	+/-828
With health insurance coverage	16,325	+/-834
No health insurance coverage	140	+/-119
75 years and over:	7,822	+/-452
With health insurance coverage	7,822	+/-452
No health insurance coverage	0	+/-244
Female:	333,746	+/-1,899
Under 6 years:	31,492	+/-1,361
With health insurance coverage	27,991	+/-1,484
No health insurance coverage	3,501	+/-915
6 to 17 years:	57,892	+/-1,353
With health insurance coverage	49,486	+/-1,698
No health insurance coverage	8,406	+/-1,626
18 to 24 years:	37,485	+/-1,340
With health insurance coverage	24,156	+/-1,771
No health insurance coverage	13,329	+/-2,088
25 to 34 years:	45,040	+/-1,602
With health insurance coverage	32,841	+/-2,393
No health insurance coverage	12,199	+/-1,727
35 to 44 years:	44,730	+/-1,360
With health insurance coverage	33,581	+/-2,109
No health insurance coverage	11,149	+/-1,988
45 to 54 years:	53,009	+/-999
With health insurance coverage	44,020	+/-1,258
No health insurance coverage	8,989	+/-1,082
55 to 64 years:	37,292	+/-847
With health insurance coverage	31,709	+/-1,440
No health insurance coverage	5,583	+/-1,404
65 to 74 years:	15,466	+/-1,080
With health insurance coverage	15,339	+/-1,077
No health insurance coverage	127	+/-104
75 years and over:	11,340	+/-873
With health insurance coverage	11,257	+/-871
No health insurance coverage	83	+/-99

Source: U.S. Census Bureau, 2009 American Community Survey

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added in 2009 -- please see [http://www.census.gov/hhes/www/hlthins/publications/coverage\\_edits\\_final.pdf](http://www.census.gov/hhes/www/hlthins/publications/coverage_edits_final.pdf) for more details. The corresponding 2008 data table in American FactFinder does not incorporate these edits and is therefore not comparable to this table. Select geographies of 2008 data comparable to the 2009 tables are accessible at <http://www.census.gov/hhes/www/hlthins/data/acs/2008/re-run.html>.

While the 2009 American Community Survey (ACS) data generally reflect the November 2008 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Explanation of Symbols:

1. An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
