

MEDIAN INCOME IN THE PAST 12 MONTHS (IN 2010 INFLATION-ADJUSTED DOLLARS)
2010 American Community Survey 1-Year Estimates

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Subject	Alaska			
	Total		Median income (dollars)	
	Estimate	Margin of Error	Estimate	Margin of Error
Households	254,610	+/-2,804	64,576	+/-2,085
One race--				
White	75.3%	+/-0.8	71,860	+/-1,908
Black or African American	3.4%	+/-0.4	56,368	+/-19,615
American Indian and Alaska Native	12.1%	+/-0.7	40,465	+/-4,551
Asian	3.6%	+/-0.4	58,542	+/-7,180
Native Hawaiian and Other Pacific Islander	N	N	N	N
Some other race	N	N	52,083	+/-11,059
Two or more races	4.1%	+/-0.6	48,298	+/-4,297
Hispanic or Latino origin (of any race)	4.1%	+/-0.4	57,328	+/-14,947
White alone, not Hispanic or Latino	72.6%	+/-0.8	71,853	+/-1,986
HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
15 to 24 years	5.8%	+/-0.6	33,777	+/-3,962
25 to 44 years	36.4%	+/-1.0	69,573	+/-3,235
45 to 64 years	45.1%	+/-0.9	76,223	+/-3,622
65 years and over	12.7%	+/-0.6	43,987	+/-4,164
FAMILIES				
Families	170,859	+/-4,484	76,962	+/-2,545
With own children under 18 years	52.0%	+/-1.7	72,679	+/-3,517
With no own children under 18 years	48.0%	+/-1.7	81,667	+/-4,186
Married-couple families	74.9%	+/-1.7	91,194	+/-2,490
Female householder, no husband present	16.8%	+/-1.4	33,086	+/-2,089
Male householder, no wife present	8.3%	+/-1.1	56,961	+/-7,347
NONFAMILY HOUSEHOLDS				
Nonfamily households	83,751	+/-4,087	40,843	+/-1,825
Female householder	44.5%	+/-2.0	39,137	+/-2,589
Living alone	34.3%	+/-2.3	32,387	+/-4,175
Not living alone	10.2%	+/-1.7	62,361	+/-18,923
Male householder	55.5%	+/-2.0	43,298	+/-5,398
Living alone	41.7%	+/-2.3	36,054	+/-4,760
Not living alone	13.7%	+/-2.0	69,355	+/-6,901
PERCENT IMPUTED				
Household income in the past 12 months	23.2%	(X)	(X)	(X)

Subject	Alaska			
	Total		Median income (dollars)	
	Estimate	Margin of Error	Estimate	Margin of Error
Family income in the past 12 months	23.7%	(X)	(X)	(X)
Nonfamily income in the past 12 months	20.8%	(X)	(X)	(X)

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
