

B12006

MARITAL STATUS BY SEX BY LABOR FORCE PARTICIPATION
Universe: Population 16 years and over
2010 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the official counts of the population and housing units for the nation, states, counties, cities and towns.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	546,981	+/-1,582
Never married:	165,251	+/-6,351
Male:	97,165	+/-4,513
In labor force:	69,700	+/-4,048
Employed or in Armed Forces	58,107	+/-3,409
Unemployed	11,593	+/-1,738
Not in labor force	27,465	+/-2,198
Female:	68,086	+/-3,322
In labor force:	47,917	+/-2,796
Employed or in Armed Forces	41,342	+/-2,679
Unemployed	6,575	+/-1,089
Not in labor force	20,169	+/-1,986
Now married (except separated):	278,795	+/-8,331
Male:	144,388	+/-5,153
In labor force:	120,806	+/-5,113
Employed or in Armed Forces	114,616	+/-5,050
Unemployed	6,190	+/-1,315
Not in labor force	23,582	+/-1,888
Female:	134,407	+/-4,258
In labor force:	87,558	+/-4,219
Employed or in Armed Forces	82,652	+/-4,231
Unemployed	4,906	+/-1,180
Not in labor force	46,849	+/-3,537
Separated:	11,824	+/-1,819
Male:	4,809	+/-1,100
In labor force:	3,275	+/-772
Employed or in Armed Forces	2,872	+/-771
Unemployed	403	+/-302
Not in labor force	1,534	+/-692
Female:	7,015	+/-1,374
In labor force:	5,322	+/-1,222
Employed or in Armed Forces	4,798	+/-1,145
Unemployed	524	+/-311
Not in labor force	1,693	+/-776
Widowed:	21,379	+/-1,947
Male:	5,126	+/-984
In labor force:	1,665	+/-563
Employed or in Armed Forces	1,327	+/-514
Unemployed	338	+/-192
Not in labor force	3,461	+/-808
Female:	16,253	+/-1,716
In labor force:	4,711	+/-1,095
Employed or in Armed Forces	4,389	+/-1,079
Unemployed	322	+/-360
Not in labor force	11,542	+/-1,316
Divorced:	69,732	+/-5,653
Male:	33,019	+/-3,305
In labor force:	24,216	+/-2,814
Employed or in Armed Forces	21,022	+/-2,521
Unemployed	3,194	+/-919
Not in labor force	8,803	+/-1,306
Female:	36,713	+/-3,583
In labor force:	26,694	+/-2,824

	Alaska	
	Estimate	Margin of Error
Employed or in Armed Forces	24,719	+/-2,674
Unemployed	1,975	+/-657
Not in labor force	10,019	+/-2,001

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
