## Symbol legend:

x Suppressed to meet the confidentiality requirements of the *Statistics Act*

## Footnotes:

1. Data by industry included in this table correspond to the System of National Accounts' input-output S levels of aggregation. For concepts, methods, sources and details concerning the industry classification system, consult the following link: <http://www.statcan.gc.ca/imdb-bmdi/5103-eng.htm>.
3. Statistics are available starting in 1999, year of the creation of the Territory of Nunavut.
4. Total economic activities that have been realized within the country. That covers both business and non-business sectors.
8. These are jobs held by workers whose base pay is calculated at an hourly rate, or on the basis of a fixed amount for a period of at least a week, or in the form of sales commission, piece rates, mileage allowances and so on. Moreover, employees are any person drawing pay for services rendered or for paid absences and for whom the employer must complete a Canada Customs and Revenue Agency T-4 Supplementary Form.
26. This combines the North American Industry Classification System (NAICS) codes 48, 49.
30. This combines the North American Industry Classification System (NAICS) codes 52, 53 and 55. It excludes the industry of owner-occupied dwellings.
31. This includes Aboriginal public administration (9141) and international and other extra-territorial public administration (9191).
33. This excludes Aboriginal public administration (9141) and international and other extra-territorial public administration (9191).
35. Each year, there are two separate data releases for SNA labour statistics. The first data release, which occurs in May, focuses only on the preliminary estimates for the last year. The second release, which occurs in the fall (November or December), focuses on the revised estimates for the last four years.
