

B22007

RECEIPT OF FOOD STAMPS/SNAP IN THE PAST 12 MONTHS BY FAMILY TYPE BY NUMBER OF WORKERS IN FAMILY IN THE PAST 12 MONTHS
Universe: Families
2010 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the [official counts of the population and housing units for the nation, states, counties, cities and towns](#).

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	170,859	+/-4,484
Household received Food Stamps/SNAP in the past 12 months:	19,189	+/-1,920
Married-couple family:	6,791	+/-1,159
No workers	492	+/-275
1 worker	2,363	+/-829
2 workers:	2,842	+/-853
Husband and wife worked	2,503	+/-874
Other	339	+/-210
3 or more workers:	1,094	+/-438
Husband and wife worked	782	+/-392
Other	312	+/-123
Other family:	12,398	+/-1,672
Male householder, no wife present:	2,843	+/-853
No workers	828	+/-409
1 worker	1,323	+/-484
2 workers	516	+/-356
3 or more workers	176	+/-170
Female householder, no husband present:	9,555	+/-1,442
No workers	2,702	+/-754
1 worker	5,113	+/-1,050
2 workers	1,229	+/-504
3 or more workers	511	+/-228
Household did not receive Food Stamps/SNAP in the past 12 months:	151,670	+/-4,641
Married-couple family:	121,178	+/-4,544
No workers	7,766	+/-1,005
1 worker	29,759	+/-2,820
2 workers:	66,495	+/-4,080
Husband and wife worked	62,139	+/-3,751
Other	4,356	+/-1,073
3 or more workers:	17,158	+/-1,749
Husband and wife worked	15,711	+/-1,664
Other	1,447	+/-490
Other family:	30,492	+/-2,525
Male householder, no wife present:	11,368	+/-1,618
No workers	220	+/-192
1 worker	6,325	+/-1,218
2 workers	4,355	+/-968
3 or more workers	468	+/-243
Female householder, no husband present:	19,124	+/-2,020
No workers	2,060	+/-633
1 worker	10,609	+/-1,447
2 workers	5,475	+/-1,158
3 or more workers	980	+/-356

Explanation of Symbols:

An '*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
