PUBLIC HEALTH INSURANCE STATUS BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2010 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, for 2010, the 2010 Census provides the [official counts of the population and housing units for the nation, states, counties, cities and towns](#).

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	689,249	+/-1,872
Male:	351,120	+/-2,257
Under 6 years:	33,667	+/-1,374
With public coverage	13,180	+/-1,450
No public coverage	20,487	+/-1,429
6 to 17 years:	64,400	+/-2,292
With public coverage	17,806	+/-1,852
No public coverage	46,594	+/-2,362
18 to 24 years:	31,899	+/-1,604
With public coverage	2,913	+/-824
No public coverage	28,986	+/-1,610
25 to 34 years:	47,996	+/-1,811
With public coverage	4,577	+/-1,110
No public coverage	43,419	+/-1,972
35 to 44 years:	45,510	+/-1,647
With public coverage	4,479	+/-1,115
No public coverage	41,031	+/-1,805
45 to 54 years:	56,100	+/-1,441
With public coverage	6,679	+/-1,332
No public coverage	49,421	+/-1,748
55 to 64 years:	46,546	+/-828
With public coverage	8,704	+/-1,110
No public coverage	37,842	+/-1,366
65 to 74 years:	17,286	+/-721
With public coverage	15,414	+/-831
No public coverage	1,872	+/-658
75 years and over:	7,716	+/-531
With public coverage	7,579	+/-572
No public coverage	137	+/-186
Female:	338,129	+/-1,869
Under 6 years:	30,792	+/-1,532
With public coverage	10,972	+/-1,474
No public coverage	19,820	+/-1,791
6 to 17 years:	59,125	+/-1,729
With public coverage	16,366	+/-1,732
No public coverage	42,759	+/-2,074
18 to 24 years:	33,878	+/-1,226
With public coverage	5,901	+/-1,158
No public coverage	27,977	+/-1,441
25 to 34 years:	47,646	+/-1,232
With public coverage	7,142	+/-1,453
No public coverage	40,504	+/-1,676
35 to 44 years:	44,094	+/-1,124
With public coverage	5,135	+/-1,119

	Alaska	
	Estimate	Margin of Error
No public coverage	38,959	+/-1,501
45 to 54 years:	54,924	+/-1,223
With public coverage	4,073	+/-910
No public coverage	50,851	+/-1,370
55 to 64 years:	40,842	+/-895
With public coverage	6,053	+/-1,098
No public coverage	34,789	+/-1,241
65 to 74 years:	16,632	+/-733
With public coverage	15,978	+/-651
No public coverage	654	+/-413
75 years and over:	10,196	+/-716
With public coverage	10,004	+/-686
No public coverage	192	+/-188

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '**' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The health insurance coverage category names were modified in 2010. See [ACS Health Insurance Definitions](#) for a list of the insurance type definitions.

While the 2010 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
