Classification according to International Classification of Diseases, Rev 10 (ICD-10).

Unit:

Number per 100,000 population: Age-adjusted world standardized incidence rate per 100,000 population. Based on world standard of Segi.

Latest update: 20190722

Units: Number/per 100,000 population

Reference period: 1958-2017
