SEX BY SCHOOL ENROLLMENT BY LEVEL OF SCHOOL BY TYPE OF SCHOOL FOR THE POPULATION 3 YEARS AND OVER

Universe: Population 3 years and over

2011 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

		Alaska	
		Estimate	Margin of Error
1	Total:	689,159	+/-1,880
49	Male:	355,698	+/-1,583
of	Enrolled in school:	94,779	+/-3,092
49	Enrolled in nursery school, preschool:	3,970	+/-756
↳	Public school	2,348	+/-515
	Private school	1,622	+/-555
	Enrolled in kindergarten:	6,370	+/-1,140
	Public school	5,739	+/-1,067
	Private school	631	+/-362
	Enrolled in grade 1 to grade 4:	20,571	+/-1,710
	Public school	19,143	+/-1,692
	Private school	1,428	+/-476
	Enrolled in grade 5 to grade 8:	20,484	+/-1,908
	Public school	19,032	+/-1,931
	Private school	1,452	+/-764
	Enrolled in grade 9 to grade 12:	21,698	+/-1,792
	Public school	20,265	+/-1,860
	Private school	1,433	+/-567
	Enrolled in college undergraduate years:	17,562	+/-2,180
	Public school	14,144	+/-1,889
	Private school	3,418	+/-1,228
	Enrolled in graduate or professional school:	4,124	+/-1,160
	Public school	2,893	+/-1,074
	Private school	1,231	+/-527
	Not enrolled in school	260,919	+/-3,258
	Female:	333,461	+/-1,869
	Enrolled in school:	101,461	+/-3,114
	Enrolled in nursery school, preschool:	5,170	+/-1,145
	Public school	3,337	+/-1,036
	Private school	1,833	+/-588
	Enrolled in kindergarten:	3,889	+/-714
	Public school	3,638	+/-689
	Private school	251	+/-184
	Enrolled in grade 1 to grade 4:	20,551	+/-1,518

	Alaska	
	Estimate	Margin of Error
Public school	18,973	+/-1,461
Private school	1,578	+/-560
Enrolled in grade 5 to grade 8:	21,415	+/-1,797
Public school	19,435	+/-1,850
Private school	1,980	+/-808
Enrolled in grade 9 to grade 12:	21,053	+/-1,490
Public school	20,011	+/-1,461
Private school	1,042	+/-397
Enrolled in college undergraduate years:	22,152	+/-2,413
Public school	18,031	+/-2,184
Private school	4,121	+/-1,194
Enrolled in graduate or professional school:	7,231	+/-1,299
Public school	6,054	+/-1,279
Private school	1,177	+/-457
Not enrolled in school	232,000	+/-2,920

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
