MARITAL STATUS BY SEX BY LABOR FORCE PARTICIPATION
Universe: Population 16 years and over
2011 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

		Alaska	
		Estimate	Margin of Error
Total:		554,678	+/-1,587
Never married:		172,167	+/-5,428
Male:		100,001	+/-3,929
In labor force:		70,397	+/-3,755
Employed or in Armed Forces		59,047	+/-3,667
Unemployed		11,350	+/-1,779
Not in labor force		29,604	+/-1,953
Female:		72,166	+/-3,433
In labor force:		51,295	+/-3,175
Employed or in Armed Forces		46,175	+/-3,234
Unemployed		5,120	+/-835
Not in labor force		20,871	+/-1,963
Now married (except separated):		279,473	+/-7,536
Male:		142,537	+/-4,477
In labor force:		113,378	+/-4,567
Employed or in Armed Forces		107,455	+/-4,580
Unemployed		5,923	+/-1,250
Not in labor force		29,159	+/-1,957
Female:		136,936	+/-4,052
In labor force:		91,924	+/-3,920
Employed or in Armed Forces		86,788	+/-3,825
Unemployed		5,136	+/-1,189
Not in labor force		45,012	+/-2,941
Separated:		11,646	+/-2,057
Male:		5,818	+/-1,384
In labor force:		4,972	+/-1,366
Employed or in Armed Forces		4,625	+/-1,346
Unemployed		347	+/-260
Not in labor force		846	+/-349
Female:		5,828	+/-1,312
In labor force:		4,377	+/-1,196
Employed or in Armed Forces		4,153	+/-1,154
Unemployed		224	+/-209
Not in labor force		1,451	+/-476
Widowed:		21,329	+/-1,731
Male:		5,370	+/-1,080
In labor force:		1,651	+/-633
Employed or in Armed Forces		1,386	+/-595
Unemployed		265	+/-203
Not in labor force		3,719	+/-849
Female:		15,959	+/-1,220
In labor force:		4,443	+/-926
Employed or in Armed Forces		3,972	+/-857
Unemployed		471	+/-357
Not in labor force		11,516	+/-1,281
Divorced:		70,063	+/-4,553
Male:		33,255	+/-2,789
In labor force:		24,374	+/-2,508
Employed or in Armed Forces		22,434	+/-2,552
Unemployed		1,940	+/-656
Not in labor force		8,881	+/-1,581
Female:		36,808	+/-3,078
In labor force:		27,595	+/-2,931
Employed or in Armed Forces		25,004	+/-2,781
Unemployed		2,591	+/-774
Not in labor force		9,213	+/-1,445

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
