

B17017

POVERTY STATUS IN THE PAST 12 MONTHS BY HOUSEHOLD TYPE BY AGE OF HOUSEHOLDER
Universe: Households
2011 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

		Alaska	
		Estimate	Margin of Error
1	Total:	257,330	+/-3,380
59	Income in the past 12 months below poverty level:	21,901	+/-1,751
of	Family households:	12,024	+/-1,704
59	Married-couple family:	3,842	+/-813
of	Householder under 25 years	448	+/-266
59	Householder 25 to 44 years	1,713	+/-573
of	Householder 45 to 64 years	1,478	+/-500
59	Householder 65 years and over	203	+/-156
of	Other family:	8,182	+/-1,485
59	Male householder, no wife present:	2,416	+/-849
of	Householder under 25 years	93	+/-83
59	Householder 25 to 44 years	1,472	+/-693
of	Householder 45 to 64 years	606	+/-390
59	Householder 65 years and over	245	+/-299
of	Female householder, no husband present:	5,766	+/-1,148
59	Householder under 25 years	845	+/-430
of	Householder 25 to 44 years	3,254	+/-898
59	Householder 45 to 64 years	1,406	+/-590
of	Householder 65 years and over	261	+/-115
59	Nonfamily households:	9,877	+/-1,529
of	Male householder:	4,488	+/-1,082
59	Householder under 25 years	673	+/-499
of	Householder 25 to 44 years	1,125	+/-613
59	Householder 45 to 64 years	2,141	+/-579
of	Householder 65 years and over	549	+/-275
59	Female householder:	5,389	+/-1,037
of	Householder under 25 years	1,044	+/-501
59	Householder 25 to 44 years	774	+/-525
of	Householder 45 to 64 years	1,829	+/-647
59	Householder 65 years and over	1,742	+/-586
of	Income in the past 12 months at or above poverty level:	235,429	+/-3,179
59	Family households:	161,255	+/-4,646
of	Married-couple family:	123,435	+/-4,083
59	Householder under 25 years	4,916	+/-1,184
of	Householder 25 to 44 years	46,601	+/-2,898
59	Householder 45 to 64 years	56,419	+/-2,670
of	Householder 65 years and over	15,499	+/-930
59	Other family:	37,820	+/-2,584
of	Male householder, no wife present:	13,328	+/-1,464
59	Householder under 25 years	625	+/-317
of	Householder 25 to 44 years	6,900	+/-1,315
59	Householder 45 to 64 years	4,886	+/-938
of	Householder 65 years and over	917	+/-345

	Alaska	
	Estimate	Margin of Error
Female householder, no husband present:	24,492	+/-2,226
Householder under 25 years	1,113	+/-468
Householder 25 to 44 years	11,727	+/-1,690
Householder 45 to 64 years	8,571	+/-1,225
Householder 65 years and over	3,081	+/-687
Nonfamily households:	74,174	+/-3,645
Male householder:	42,056	+/-2,827
Householder under 25 years	3,249	+/-908
Householder 25 to 44 years	14,794	+/-1,895
Householder 45 to 64 years	17,604	+/-2,093
Householder 65 years and over	6,409	+/-1,061
Female householder:	32,118	+/-2,332
Householder under 25 years	1,794	+/-682
Householder 25 to 44 years	8,700	+/-1,471
Householder 45 to 64 years	14,181	+/-1,569
Householder 65 years and over	7,443	+/-819

Source: U.S. Census Bureau, 2011 American Community Survey

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
