HEALTH INSURANCE COVERAGE STATUS BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2011 American Community Survey 1-Year Estimates

[BACK TO ADVANCED SEARCH](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Alaska		
	Estimate	Margin of Error
1 Total:	699,272	+/-1,868
57 of 57 Male:	353,412	+/-2,409
Under 6 years:	33,525	+/-1,292
With health insurance coverage	29,783	+/-1,601
No health insurance coverage	3,742	+/-917
6 to 17 years:	62,160	+/-1,391
With health insurance coverage	54,244	+/-1,807
No health insurance coverage	7,916	+/-1,228
18 to 24 years:	36,558	+/-1,332
With health insurance coverage	23,299	+/-2,003
No health insurance coverage	13,259	+/-1,637
25 to 34 years:	49,026	+/-1,853
With health insurance coverage	30,629	+/-2,328
No health insurance coverage	18,397	+/-1,787
35 to 44 years:	43,468	+/-1,474
With health insurance coverage	31,584	+/-2,223
No health insurance coverage	11,884	+/-1,759
45 to 54 years:	53,827	+/-1,388
With health insurance coverage	39,703	+/-2,087
No health insurance coverage	14,124	+/-1,853
55 to 64 years:	47,108	+/-810
With health insurance coverage	38,517	+/-1,285
No health insurance coverage	8,591	+/-1,247
65 to 74 years:	18,879	+/-724
With health insurance coverage	18,589	+/-744
No health insurance coverage	290	+/-209
75 years and over:	8,861	+/-529
With health insurance coverage	8,780	+/-527
No health insurance coverage	81	+/-78
Female:	345,860	+/-1,555
Under 6 years:	30,868	+/-1,199
With health insurance coverage	28,266	+/-1,246
No health insurance coverage	2,602	+/-708
6 to 17 years:	61,155	+/-1,241
With health insurance coverage	53,306	+/-1,670
No health insurance coverage	7,849	+/-1,449
18 to 24 years:	33,476	+/-1,036
With health insurance coverage	24,247	+/-1,476
No health insurance coverage	9,229	+/-1,359
25 to 34 years:	49,697	+/-1,598
With health insurance coverage	36,068	+/-2,017
No health insurance coverage	13,629	+/-1,718
35 to 44 years:	45,740	+/-1,542
With health insurance coverage	37,302	+/-1,654
No health insurance coverage	8,438	+/-1,229
45 to 54 years:	52,364	+/-1,319
With health insurance coverage	41,041	+/-1,581
No health insurance coverage	11,323	+/-1,435
55 to 64 years:	43,316	+/-783
With health insurance coverage	34,702	+/-1,170
No health insurance coverage	8,614	+/-1,157
65 to 74 years:	18,371	+/-919
With health insurance coverage	17,860	+/-936
No health insurance coverage	511	+/-376
75 years and over:	10,873	+/-414
With health insurance coverage	10,692	+/-472
No health insurance coverage	181	+/-197

Explanation of Symbols:

- An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
- An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- An '****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
- An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
