DIRECT-PURCHASE HEALTH INSURANCE BY SEX BY AGE
 Universe: Civilian noninstitutionalized population
 2011 American Community Survey 1-Year Estimates

[BACK TO ADVANCED SEARCH](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

		Alaska	
		Estimate	Margin of Error
1	Total:	699,272	+/-1,868
57	Male:	353,412	+/-2,409
	Under 6 years:	33,525	+/-1,292
	With direct-purchase health insurance	719	+/-427
	No direct-purchase health insurance	32,806	+/-1,435
	6 to 17 years:	62,160	+/-1,391
	With direct-purchase health insurance	2,568	+/-749
	No direct-purchase health insurance	59,592	+/-1,557
	18 to 24 years:	36,558	+/-1,332
	With direct-purchase health insurance	2,346	+/-767
	No direct-purchase health insurance	34,212	+/-1,439
	25 to 34 years:	49,026	+/-1,853
	With direct-purchase health insurance	2,010	+/-619
	No direct-purchase health insurance	47,016	+/-1,890
	35 to 44 years:	43,468	+/-1,474
	With direct-purchase health insurance	1,953	+/-634
	No direct-purchase health insurance	41,515	+/-1,499
	45 to 54 years:	53,827	+/-1,388
	With direct-purchase health insurance	3,619	+/-854
	No direct-purchase health insurance	50,208	+/-1,595
	55 to 64 years:	47,108	+/-810
	With direct-purchase health insurance	3,794	+/-849
	No direct-purchase health insurance	43,314	+/-1,162
	65 to 74 years:	18,879	+/-724
	With direct-purchase health insurance	2,308	+/-564
	No direct-purchase health insurance	16,571	+/-895
	75 years and over:	8,861	+/-529
	With direct-purchase health insurance	2,233	+/-563
	No direct-purchase health insurance	6,628	+/-743
	Female:	345,860	+/-1,555
	Under 6 years:	30,868	+/-1,199
	With direct-purchase health insurance	848	+/-428
	No direct-purchase health insurance	30,020	+/-1,304
	6 to 17 years:	61,155	+/-1,241
	With direct-purchase health insurance	2,732	+/-671
	No direct-purchase health insurance	58,423	+/-1,443
	18 to 24 years:	33,476	+/-1,036
	With direct-purchase health insurance	1,392	+/-562
	No direct-purchase health insurance	32,084	+/-1,137
	25 to 34 years:	49,697	+/-1,598
	With direct-purchase health insurance	1,260	+/-463
	No direct-purchase health insurance	48,437	+/-1,597
	35 to 44 years:	45,740	+/-1,542
	With direct-purchase health insurance	3,012	+/-905
	No direct-purchase health insurance	42,728	+/-1,696
	45 to 54 years:	52,364	+/-1,319
	With direct-purchase health insurance	4,243	+/-929
	No direct-purchase health insurance	48,121	+/-1,666
	55 to 64 years:	43,316	+/-783
	With direct-purchase health insurance	3,306	+/-769
	No direct-purchase health insurance	40,010	+/-1,000
	65 to 74 years:	18,371	+/-919
	With direct-purchase health insurance	2,726	+/-642
	No direct-purchase health insurance	15,645	+/-1,156
	75 years and over:	10,873	+/-414
	With direct-purchase health insurance	2,701	+/-577
	No direct-purchase health insurance	8,172	+/-674

Explanation of Symbols:

- An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
- An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- An '****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
- An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

The health insurance coverage category names were modified in 2010. See [ACS Health Insurance Definitions](#) for a list of the insurance type definitions.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
