Universe: Civilian noninstitutionalized population
2011 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

	Alaska	
	Estimate	**Margin of Error**
Total:	699,272	+/-1,868
Male:	353,412	+/-2,409
Under 6 years:	33,525	+/-1,292
With Medicare coverage	219	+/-225
No Medicare coverage	33,306	+/-1,321
6 to 17 years:	62,160	+/-1,391
With Medicare coverage	229	+/-221
No Medicare coverage	61,931	+/-1,412
18 to 24 years:	36,558	+/-1,332
With Medicare coverage	129	+/-165
No Medicare coverage	36,429	+/-1,315
25 to 34 years:	49,026	+/-1,853
With Medicare coverage	638	+/-357
No Medicare coverage	48,388	+/-1,882
35 to 44 years:	43,468	+/-1,474
With Medicare coverage	808	+/-551
No Medicare coverage	42,660	+/-1,709
45 to 54 years:	53,827	+/-1,388
With Medicare coverage	1,097	+/-689
No Medicare coverage	52,730	+/-1,620
55 to 64 years:	47,108	+/-810
With Medicare coverage	3,084	+/-815
No Medicare coverage	44,024	+/-1,107
65 to 74 years:	18,879	+/-724
With Medicare coverage	17,542	+/-765
No Medicare coverage	1,337	+/-467
75 years and over:	8,861	+/-529
With Medicare coverage	8,562	+/-576
No Medicare coverage	299	+/-207
Female:	345,860	+/-1,555
Under 6 years:	30,868	+/-1,199
With Medicare coverage	91	+/-86
No Medicare coverage	30,777	+/-1,212
6 to 17 years:	61,155	+/-1,241
With Medicare coverage	197	+/-137
No Medicare coverage	60,958	+/-1,245
18 to 24 years:	33,476	+/-1,036
With Medicare coverage	136	+/-106
No Medicare coverage	33,340	+/-1,035
25 to 34 years:	49,697	+/-1,598
With Medicare coverage	373	+/-267
No Medicare coverage	49,324	+/-1,571
35 to 44 years:	45,740	+/-1,542
With Medicare coverage	772	+/-458
No Medicare coverage	44,968	+/-1,541
45 to 54 years:	52,364	+/-1,319
With Medicare coverage	975	+/-398
No Medicare coverage	51,389	+/-1,327
55 to 64 years:	43,316	+/-783
With Medicare coverage	2,396	+/-699
No Medicare coverage	40,920	+/-1,040
65 to 74 years:	18,371	+/-919
With Medicare coverage	16,793	+/-874
No Medicare coverage	1,578	+/-502
75 years and over:	10,873	+/-414
With Medicare coverage	10,692	+/-472
No Medicare coverage	181	+/-197

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2011 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
