Global non-response rate (GNR)¹ = 29.9 %

Knowledge of Inuit languages (10)	Single and multiple language responses - Knowledge of languages (3)		
	Total - Knowledge of languages: Single and multiple language responses ²	Single language responses ³	Multiple language responses ⁴
Total - Knowledge of Inuit languages ⁵	33,320	24,805	8,520
English	33,160	24,665	8,500
French	4,265	50	4,215
Inuit languages	20	0	25
Inuktitut	15	0	15
Inuinnaqtun	0	0	0
Inuvialuktun	0	0	0
Inuit languages, n.i.e.	0	0	0
Aboriginal languages, not including Inuit languages	1,085	0	1,090
Other languages ⁶	4,145	90	4,055

- For the 2011 National Household Survey (NHS) estimates, the global non-response rate (GNR) is used as an indicator of data quality. This indicator combines complete non-response (household) and partial non-response (question) into a single rate. The value of the GNR is presented to users. A smaller GNR indicates a lower risk of non-response bias and as a result, lower risk of inaccuracy. The threshold used for estimates' suppression is a GNR of 50% or more. For more information, please refer to the National Household Survey User Guide, 2011.
- The category 'Total - Knowledge of languages: Single and multiple language responses' indicates the number of respondents who reported each language, either as their only response or in addition to one or more other languages. Total responses represent the sum of single language responses and multiple language responses received in the NHS.
- A single language response occurs when a respondent provides one language only.
- A multiple language response occurs when a respondent provides two or more languages.
- This is a total population estimate. The sum of the languages in this table is greater than the total population estimate because a person may report knowledge of more than one language in the NHS.
- This is a subtotal of all languages collected by the NHS that are not displayed separately here. For a full list of languages collected in the NHS, please refer to Appendix 1.3 in the National Household Survey Dictionary, 2011.
