Global non-response rate (GNR)<sup>1</sup> = 29.9 %

Mother tongue (8)	Language spoken most often at home (8)							
	Total - Language spoken most often at home	English	French	Non-official language	English and French	English and non-official language	French and non-official language	English, French and non-official language
Total - Mother tongue	33,320	31,100	705	975	45	495	0	0
English	28,115	28,000	30	40	0	40	0	0
French	1,180	515	625	0	35	0	0	0
Non-official language	3,625	2,315	40	890	0	380	0	0
English and French	85	70	0	0	0	0	0	0
English and non-official language	290	185	0	45	0	60	0	0
French and non-official language	20	10	0	0	0	0	0	0
English, French and non-official language	0	0	0	0	0	0	0	0

<sup>1</sup> For the 2011 National Household Survey (NHS) estimates, the global non-response rate (GNR) is used as an indicator of data quality. This indicator combines complete non-response (household) and partial non-response (question) into a single rate. The value of the GNR is presented to users. A smaller GNR indicates a lower risk of non-response bias and as a result, lower risk of inaccuracy. The threshold used for estimates' suppression is a GNR of 50% or more. For more information, please refer to the National Household Survey User Guide, 2011.
