**SEX BY SCHOOL ENROLLMENT BY TYPE OF SCHOOL BY AGE FOR THE  
POPULATION 3 YEARS AND OVER  
Universe: Population 3 years and over  
2012 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	698,740	+/-1,427
Male:	364,554	+/-1,873
Enrolled in public school:	85,719	+/-3,288
3 and 4 years	2,781	+/-569
5 to 9 years	21,990	+/-1,993
10 to 14 years	23,835	+/-1,619
15 to 17 years	14,020	+/-1,147
18 and 19 years	6,358	+/-1,475
20 to 24 years	6,066	+/-1,386
25 to 34 years	6,409	+/-1,438
35 years and over	4,260	+/-994
Enrolled in private school:	13,790	+/-2,051
3 and 4 years	1,603	+/-651
5 to 9 years	3,508	+/-996
10 to 14 years	2,048	+/-637
15 to 17 years	1,318	+/-528
18 and 19 years	1,014	+/-473
20 to 24 years	1,122	+/-673
25 to 34 years	1,485	+/-683
35 years and over	1,692	+/-593
Not enrolled in school:	265,045	+/-2,979
3 and 4 years	6,669	+/-807
5 to 9 years	1,535	+/-655
10 to 14 years	542	+/-251
15 to 17 years	561	+/-330
18 and 19 years	4,636	+/-908
20 to 24 years	25,673	+/-1,829
25 to 34 years	48,379	+/-2,202
35 years and over	177,050	+/-1,801
Female:	334,186	+/-1,962
Enrolled in public school:	84,326	+/-3,118
3 and 4 years	2,055	+/-477
5 to 9 years	20,644	+/-1,708
10 to 14 years	22,128	+/-1,446
15 to 17 years	11,881	+/-1,043
18 and 19 years	4,148	+/-941
20 to 24 years	8,825	+/-1,406
25 to 34 years	7,411	+/-1,221
35 years and over	7,234	+/-1,352
Enrolled in private school:	11,700	+/-1,708
3 and 4 years	1,740	+/-658
5 to 9 years	2,802	+/-765
10 to 14 years	2,107	+/-637
15 to 17 years	1,290	+/-644
18 and 19 years	419	+/-256
20 to 24 years	570	+/-465
25 to 34 years	1,068	+/-506
35 years and over	1,704	+/-774
Not enrolled in school:	238,160	+/-3,047
3 and 4 years	6,377	+/-1,239
5 to 9 years	1,726	+/-731
10 to 14 years	252	+/-171
15 to 17 years	1,144	+/-636
18 and 19 years	3,253	+/-751
20 to 24 years	17,506	+/-1,310
25 to 34 years	44,579	+/-1,874
35 years and over	163,323	+/-1,894

Explanation of Symbols:

An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
