

**SEX BY OCCUPATION FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS
AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE)**
**Universe: Civilian employed American Indian and Alaska Native alone
population 16 years and over**
2012 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
Total:	33,684	+/-1,926
Male:	15,582	+/-1,282
Management, business, science, and arts occupations:	2,858	+/-733
Management, business, and financial occupations:	1,753	+/-636
Management occupations	1,642	+/-620
Business and financial operations occupations	111	+/-115
Computer, engineering, and science occupations:	426	+/-358
Computer and mathematical occupations	157	+/-214
Architecture and engineering occupations	52	+/-37
Life, physical, and social science occupations	217	+/-287
Education, legal, community service, arts, and media occupations:	644	+/-199
Community and social service occupations	278	+/-158
Legal occupations	15	+/-30
Education, training, and library occupations	293	+/-98
Arts, design, entertainment, sports, and media occupations	58	+/-79
Healthcare practitioners and technical occupations:	35	+/-32
Health diagnosing and treating practitioners and other technical occupations	0	+/-143
Health technologists and technicians	35	+/-32
Service occupations:	3,468	+/-642
Healthcare support occupations	128	+/-90
Protective service occupations:	753	+/-294
Fire fighting and prevention, and other protective service workers including supervisors	425	+/-244
Law enforcement workers including supervisors	328	+/-170
Food preparation and serving related occupations	529	+/-400
Building and grounds cleaning and maintenance occupations	1,651	+/-523
Personal care and service occupations	407	+/-189
Sales and office occupations:	1,861	+/-457
Sales and related occupations	483	+/-141
Office and administrative support occupations	1,378	+/-431
Natural resources, construction, and maintenance occupations:	4,558	+/-827
Farming, fishing, and forestry occupations	646	+/-216
Construction and extraction occupations	2,551	+/-647
Installation, maintenance, and repair occupations	1,361	+/-568
Production, transportation, and material moving occupations:	2,837	+/-537
Production occupations	914	+/-277
Transportation occupations	994	+/-322
Material moving occupations	929	+/-308
Female:	18,102	+/-1,349
Management, business, science, and arts occupations:	6,439	+/-944
Management, business, and financial occupations:	2,565	+/-593
Management occupations	2,113	+/-556
Business and financial operations occupations	452	+/-199
Computer, engineering, and science occupations:	246	+/-166
Computer and mathematical occupations	14	+/-17
Architecture and engineering occupations	176	+/-154
Life, physical, and social science occupations	56	+/-47

	Alaska	
	Estimate	Margin of Error
Education, legal, community service, arts, and media occupations:	3,124	+/-656
Community and social service occupations	1,295	+/-644
Legal occupations	69	+/-48
Education, training, and library occupations	1,588	+/-260
Arts, design, entertainment, sports, and media occupations	172	+/-153
Healthcare practitioners and technical occupations:	504	+/-283
Health diagnosing and treating practitioners and other technical occupations	250	+/-178
Health technologists and technicians	254	+/-191
Service occupations:	4,463	+/-710
Healthcare support occupations	899	+/-418
Protective service occupations:	308	+/-154
Fire fighting and prevention, and other protective service workers including supervisors	195	+/-132
Law enforcement workers including supervisors	113	+/-84
Food preparation and serving related occupations	958	+/-341
Building and grounds cleaning and maintenance occupations	733	+/-249
Personal care and service occupations	1,565	+/-518
Sales and office occupations:	6,609	+/-871
Sales and related occupations	1,611	+/-438
Office and administrative support occupations	4,998	+/-881
Natural resources, construction, and maintenance occupations:	147	+/-122
Farming, fishing, and forestry occupations	14	+/-19
Construction and extraction occupations	116	+/-118
Installation, maintenance, and repair occupations	17	+/-24
Production, transportation, and material moving occupations:	444	+/-135
Production occupations	196	+/-87
Transportation occupations	98	+/-60
Material moving occupations	150	+/-92

Explanation of Symbols:

An '*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

While the 2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
