B27001

HEALTH INSURANCE COVERAGE STATUS BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2012 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

	Alaska	
	Estimate	Margin of Error
Total:	708,946	+/-1,546
Male:	362,461	+/-2,242
Under 6 years:	32,771	+/-1,446
With health insurance coverage	28,913	+/-1,517
No health insurance coverage	3,858	+/-847
6 to 17 years:	63,992	+/-1,428
With health insurance coverage	53,854	+/-2,338
No health insurance coverage	10,138	+/-1,957
18 to 24 years:	38,386	+/-1,810
With health insurance coverage	25,137	+/-1,943
No health insurance coverage	13,249	+/-1,646
25 to 34 years:	49,743	+/-1,776
With health insurance coverage	31,248	+/-2,324
No health insurance coverage	18,495	+/-2,069
35 to 44 years:	46,027	+/-1,579
With health insurance coverage	33,119	+/-1,688
No health insurance coverage	12,908	+/-1,629
45 to 54 years:	53,186	+/-1,195
With health insurance coverage	39,355	+/-1,629
No health insurance coverage	13,831	+/-1,586
55 to 64 years:	48,753	+/-666
With health insurance coverage	40,761	+/-1,272
No health insurance coverage	7,992	+/-1,133
65 to 74 years:	20,319	+/-611
With health insurance coverage	20,097	+/-639
No health insurance coverage	222	+/-133
75 years and over:	9,284	+/-529
With health insurance coverage	9,279	+/-529
No health insurance coverage	5	+/-10
Female:	346,485	+/-1,896
Under 6 years:	31,743	+/-1,161
With health insurance coverage	28,082	+/-1,388
No health insurance coverage	3,661	+/-724
6 to 17 years:	58,566	+/-1,434
With health insurance coverage	50,266	+/-1,781
No health insurance coverage	8,300	+/-1,636
18 to 24 years:	34,088	+/-1,055
With health insurance coverage	26,291	+/-1,242
No health insurance coverage	7,797	+/-845
25 to 34 years:	52,103	+/-1,492
With health insurance coverage	37,795	+/-1,979
No health insurance coverage	14,308	+/-1,690
35 to 44 years:	45,301	+/-1,467
With health insurance coverage	35,065	+/-1,911
No health insurance coverage	10,236	+/-1,307
45 to 54 years:	49,291	+/-1,446
With health insurance coverage	37,794	+/-1,599
No health insurance coverage	11,497	+/-1,557
55 to 64 years:	44,068	+/-806
With health insurance coverage	35,563	+/-1,570
No health insurance coverage	8,505	+/-1,321
65 to 74 years:	19,776	+/-749
With health insurance coverage	19,490	+/-797
No health insurance coverage	286	+/-233
75 years and over:	11,549	+/-812
With health insurance coverage	11,549	+/-812
No health insurance coverage	0	+/-143

Explanation of Symbols:
An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were

available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

While the 2012 American Community Survey (ACS) data generally reflect the December 2009 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2000 data. Boundaries for urban areas have not been updated since Census 2000. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
