Footnotes:

Current accounts: Allocation of primary income account

Current accounts: Secondary distribution of income account

Current accounts: Use of disposable income account

Includes compensation of employees of all resident households

Canada totals in the provincial and territorial gross domestic product by income and by expenditure accounts (PTEA) do not correspond to the national gross domestic product by income and by expenditure accounts (IEA) estimates at certain times of the year. The IEA's annual revisions, released each spring, result in a discrepancy between the estimates. The PTEA are brought back in line when the IEA's annual revisions are incorporated.

Terminated with the 1998 data.

Prior to 1999, see Northwest Territories including Nunavut.

"Household saving rate" has been amended to represent a percentage.
