

**SEX BY SCHOOL ENROLLMENT BY TYPE OF SCHOOL BY AGE FOR THE  
POPULATION 3 YEARS AND OVER  
Universe: Population 3 years and over  
2013 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

**2013**  
**2012**  
**2011**  
**2010**  
**2009**  
**2008**  
**2007**  
**2006**  
**2005**

	Alaska	
	Estimate	Margin of Error
1 - Total:	703,375	+/-1,716
57 of 57 Male:	370,767	+/-2,251
Enrolled in public school:	91,744	+/-2,824
3 and 4 years	2,889	+/-861
5 to 9 years	23,260	+/-1,915
10 to 14 years	24,979	+/-2,013
15 to 17 years	13,766	+/-1,276
18 and 19 years	8,495	+/-1,637
20 to 24 years	7,879	+/-1,788
25 to 34 years	6,611	+/-1,361
35 years and over	3,865	+/-889
Enrolled in private school:	11,814	+/-2,411
3 and 4 years	1,997	+/-599
5 to 9 years	1,712	+/-612
10 to 14 years	1,867	+/-514
15 to 17 years	1,440	+/-585
18 and 19 years	513	+/-424
20 to 24 years	909	+/-567
25 to 34 years	2,574	+/-1,296
35 years and over	802	+/-532
Not enrolled in school:	267,209	+/-3,233
3 and 4 years	6,906	+/-1,387
5 to 9 years	2,017	+/-599
10 to 14 years	419	+/-338
15 to 17 years	556	+/-291
18 and 19 years	4,608	+/-879
20 to 24 years	24,820	+/-1,675
25 to 34 years	52,212	+/-1,949
35 years and over	175,671	+/-1,714
Female:	332,608	+/-2,332
Enrolled in public school:	85,620	+/-3,887
3 and 4 years	3,094	+/-721
5 to 9 years	19,737	+/-2,161
10 to 14 years	23,199	+/-1,998
15 to 17 years	11,679	+/-1,347
18 and 19 years	6,661	+/-1,426
20 to 24 years	7,297	+/-1,088
25 to 34 years	6,734	+/-1,251
35 years and over	7,219	+/-1,569
Enrolled in private school:	11,606	+/-2,050
3 and 4 years	1,481	+/-643
5 to 9 years	1,801	+/-829
10 to 14 years	1,939	+/-571
15 to 17 years	1,177	+/-471
18 and 19 years	773	+/-475
20 to 24 years	1,463	+/-886
25 to 34 years	1,094	+/-558
35 years and over	1,878	+/-781
Not enrolled in school:	235,382	+/-3,891
3 and 4 years	6,581	+/-1,016
5 to 9 years	2,335	+/-810
10 to 14 years	783	+/-587
15 to 17 years	995	+/-812
18 and 19 years	2,309	+/-709
20 to 24 years	18,380	+/-1,878
25 to 34 years	44,783	+/-1,994
35 years and over	159,216	+/-2,151

Explanation of Symbols:

An '\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: [User Notes](#)

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
