

**POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE
BY PRESENCE OF RELATED CHILDREN UNDER 18 YEARS BY AGE OF
RELATED CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE)**
Universe: Families with a householder who is American Indian and Alaska
Native alone
2013 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

1 - 41 of 41	Alaska	
	Estimate	Margin of Error
Versions of this table are available for the following years: 2013 2012 2011 2010 2009 2008 2007 2006	Total:	18,866 +/-1,198
	Income in the past 12 months below poverty level:	3,839 +/-447
	Married-couple family:	1,230 +/-242
	With related children under 18 years:	988 +/-212
	Under 5 years only	93 +/-53
	Under 5 years and 5 to 17 years	539 +/-144
	5 to 17 years only	356 +/-150
	No related children under 18 years	242 +/-138
	Other family:	2,609 +/-361
	Male householder, no wife present:	764 +/-212
	With related children under 18 years:	653 +/-198
	Under 5 years only	254 +/-168
	Under 5 years and 5 to 17 years	203 +/-70
	5 to 17 years only	196 +/-73
	No related children under 18 years	111 +/-69
	Female householder, no husband present:	1,845 +/-367
	With related children under 18 years:	1,560 +/-336
	Under 5 years only	331 +/-121
	Under 5 years and 5 to 17 years	628 +/-182
	5 to 17 years only	601 +/-238
	No related children under 18 years	285 +/-135
	Income in the past 12 months at or above poverty level:	15,027 +/-1,231
	Married-couple family:	9,550 +/-1,009
	With related children under 18 years:	5,968 +/-863
	Under 5 years only	718 +/-268
	Under 5 years and 5 to 17 years	1,990 +/-535
	5 to 17 years only	3,260 +/-619
	No related children under 18 years	3,582 +/-653
	Other family:	5,477 +/-799
	Male householder, no wife present:	1,988 +/-365
	With related children under 18 years:	1,281 +/-334
	Under 5 years only	328 +/-178
	Under 5 years and 5 to 17 years	298 +/-172
	5 to 17 years only	655 +/-239
	No related children under 18 years	707 +/-179
	Female householder, no husband present:	3,489 +/-633
	With related children under 18 years:	2,185 +/-437
	Under 5 years only	218 +/-80
	Under 5 years and 5 to 17 years	471 +/-190
	5 to 17 years only	1,496 +/-380
	No related children under 18 years	1,304 +/-413

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: [User Notes](#)

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.
