

DIRECT-PURCHASE HEALTH INSURANCE BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2013 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

2013
2012
2011
2010

	Alaska	
	Estimate	Margin of Error
Total:	712,248	+/-1,963
Male:	366,864	+/-2,541
Under 6 years:	32,520	+/-1,140
With direct-purchase health insurance	1,056	+/-623
No direct-purchase health insurance	31,464	+/-1,179
6 to 17 years:	64,453	+/-1,770
With direct-purchase health insurance	3,491	+/-983
No direct-purchase health insurance	60,962	+/-2,037
18 to 24 years:	41,124	+/-1,698
With direct-purchase health insurance	2,716	+/-972
No direct-purchase health insurance	38,408	+/-1,745
25 to 34 years:	53,122	+/-1,828
With direct-purchase health insurance	2,518	+/-917
No direct-purchase health insurance	50,604	+/-2,013
35 to 44 years:	44,886	+/-1,749
With direct-purchase health insurance	2,838	+/-763
No direct-purchase health insurance	42,048	+/-1,944
45 to 54 years:	50,630	+/-1,328
With direct-purchase health insurance	3,486	+/-873
No direct-purchase health insurance	47,144	+/-1,668
55 to 64 years:	47,868	+/-960
With direct-purchase health insurance	3,586	+/-880
No direct-purchase health insurance	44,282	+/-1,283
65 to 74 years:	22,353	+/-942
With direct-purchase health insurance	2,214	+/-535
No direct-purchase health insurance	20,139	+/-1,068
75 years and over:	9,908	+/-768
With direct-purchase health insurance	1,547	+/-604
No direct-purchase health insurance	8,361	+/-976
Female:	345,384	+/-2,157
Under 6 years:	32,990	+/-1,529
With direct-purchase health insurance	1,502	+/-812
No direct-purchase health insurance	31,488	+/-1,623
6 to 17 years:	57,922	+/-1,803
With direct-purchase health insurance	2,650	+/-768
No direct-purchase health insurance	55,272	+/-2,029
18 to 24 years:	36,049	+/-1,261
With direct-purchase health insurance	2,222	+/-841
No direct-purchase health insurance	33,827	+/-1,406
25 to 34 years:	51,378	+/-1,318
With direct-purchase health insurance	2,355	+/-699
No direct-purchase health insurance	49,023	+/-1,397
35 to 44 years:	42,352	+/-1,227
With direct-purchase health insurance	1,991	+/-682
No direct-purchase health insurance	40,361	+/-1,402
45 to 54 years:	49,128	+/-1,073
With direct-purchase health insurance	3,527	+/-782
No direct-purchase health insurance	45,601	+/-1,276
55 to 64 years:	43,239	+/-814
With direct-purchase health insurance	3,715	+/-922
No direct-purchase health insurance	39,524	+/-1,256
65 to 74 years:	20,604	+/-843
With direct-purchase health insurance	3,170	+/-751
No direct-purchase health insurance	17,434	+/-1,095
75 years and over:	11,722	+/-617
With direct-purchase health insurance	1,562	+/-515
No direct-purchase health insurance	10,160	+/-758

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

In data year 2013, there were a series of changes to data collection operations that could have affected some estimates. These changes include the addition of Internet as a mode of data collection, the end of the content portion of Failed Edit Follow-Up interviewing, and the loss of one monthly panel due to the Federal Government shut down in October 2013. For more information, see: [User Notes](#)

The health insurance coverage category names were modified in 2010. See [ACS Health Insurance Definitions](#) for a list of the insurance type definitions.

While the 2013 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
