Industry (branch of economic activity) Industry (branch of economic activity) is the kind of production or activity of the establishment (or similar unit) in which the job of a currently economically active person is located.

Persons doing more than one job are allocated an industry (branch of economic activity) based on their main job, which is identified according to the income received.

Persons are classified according to the industry they worked in during their most recent employment. The categories included in the breakdown 'industry' list the 21 sections of the NACE Rev. 2 classification and appropriate aggregates.

The allocation of a person within the breakdowns of the topics 'Occupation', 'Industry' and 'Status in employment' is based on the same job.

Status in employment An 'employee' is a person who works in a 'paid employment' job, that is a job where the explicit or implicit contract of employment gives the incumbent a basic remuneration, which is independent of the revenue of the unit for which he/she works.

An 'employer' is a person who, working on his or her own account or with a small number of partners, holds a 'self-employment' job and, in this capacity, on a continuous basis (including the reference period) has engaged one or more persons to work for him/her as 'employees'.

If a person is both employer and employee, he/she is allocated to only one group according to the income received.

An 'own-account worker' is a person who, working on his/her own account or with one or a few partners, holds a 'self-employment job' and has not engaged, on a continuous basis, any 'employees'.

A 'contributing family worker' is a person who

— holds a 'self-employment' job in a market-oriented establishment operated by a related person, living in the same household, and

— cannot be regarded as a partner (that is an employer or own-account worker) because the degree of commitment to the operation of the establishment is not at a level comparable to that of the head of the establishment.

The allocation of a person within the breakdowns of the topics 'Occupation', 'Industry' and 'Status in employment' is based on the same job.
