Respondents were asked the following question about their health.

How is your health in general, is it very good, good, fair, bad or very bad?

1: Very good

2: Good

3: Fair

4: Bad

5: Very bad

The table shows results when responses from those in very good and good health have been combined and those have been compared to others. This is in accordance with OECD classification.

Latest update: 20161021 15:00

Units: Proportion %/Confidence intervals +/-/Estimated number
