Geography = Yukon
 Statistics ^{13, 14, 15} = Number of persons (persons)

Aboriginal identity ³	Age group ⁴	Sex	Smoking status ²	2012
Total, Aboriginal identity	Total, 15 years and over	Both sexes	Total, smoking status	4,030
			Current daily or occasional smoker ^{8, 9}	1,610
			Daily smoker ^{8, 9}	1,200
			Occasional smoker ^{8, 9}	400 ^E
			Non-smoker ^{8, 9, 10}	2,270
			Exposed to second-hand smoke at home ^{10, 11}	130 ^E
			Not exposed to second-hand smoke at home ^{10, 11}	2,140
			Not specified if exposed to second-hand smoke at home ^{10, 11, 12}	F
			Smoking status not specified ^{8, 9, 12}	F
		Male	Total, smoking status	1,620
			Current daily or occasional smoker ^{8, 9}	740 ^E
			Daily smoker ^{8, 9}	610 ^E
			Occasional smoker ^{8, 9}	130 ^E
			Non-smoker ^{8, 9, 10}	800 ^E
			Exposed to second-hand smoke at home ^{10, 11}	F
			Not exposed to second-hand smoke at home ^{10, 11}	740 ^E
			Not specified if exposed to second-hand smoke at home ^{10, 11, 12}	F
			Smoking status not specified ^{8, 9, 12}	F
		Female	Total, smoking status	2,410
			Current daily or occasional smoker ^{8, 9}	860 ^E
			Daily smoker ^{8, 9}	590 ^E
			Occasional smoker ^{8, 9}	F
			Non-smoker ^{8, 9, 10}	1,470
			Exposed to second-hand smoke at home ^{10, 11}	F
	Not exposed to second-hand smoke at home ^{10, 11}		1,400	
	Not specified if exposed to second-hand smoke at home ^{10, 11, 12}		F	
	Smoking status not specified ^{8, 9, 12}		F	
	15 to 24 years	Both sexes	Total, smoking status	1,060
Current daily or occasional smoker ^{8, 9}			330 ^E	
Daily smoker ^{8, 9}			260 ^E	
Occasional smoker ^{8, 9}			70 ^E	
Non-smoker ^{8, 9, 10}			720 ^E	
Exposed to second-hand smoke at home ^{10, 11}			F	
Not exposed to second-hand smoke at home ^{10, 11}			660 ^E	

Aboriginal identity ³	Age group ⁴	Sex	Smoking status ²	2012
			Not specified if exposed to second-hand smoke at home 10 11 12	F
			Smoking status not specified 8 9 12	F
		Male	Total, smoking status	420 ^E
			Current daily or occasional smoker 8 9	160 ^E
			Daily smoker 8 9	F
			Occasional smoker 8 9	F
			Non-smoker 8 9 10	260 ^E
			Exposed to second-hand smoke at home 10 11	F
			Not exposed to second-hand smoke at home 10 11	230 ^E
			Not specified if exposed to second-hand smoke at home 10 11 12	F
			Smoking status not specified 8 9 12	F
			Female	Total, smoking status
		Current daily or occasional smoker 8 9		F
		Daily smoker 8 9		F
		Occasional smoker 8 9		F
		Non-smoker 8 9 10		460 ^E
		Exposed to second-hand smoke at home 10 11		F
		Not exposed to second-hand smoke at home 10 11		440 ^E

Symbol legend:

- E Use with caution
F Too unreliable to be published

Footnotes:

- Source: Aboriginal Peoples Survey 2012.
- Excludes persons living on Indian reserves or settlements.
- Aboriginal identity includes persons living off reserve who reported being an Aboriginal person, that is, First Nations (North American Indian), Métis or Inuk (Inuit) and/or those who reported Registered or Treaty Indian status, that is registered under the Indian Act of Canada, and/or those who reported membership in a First Nation or Indian band. The sum of the categories included in this variable is greater than the total population estimate for Aboriginal identity because a person may have reported more than one Aboriginal identity: for example, a person could self-identify as both First Nations and Métis.
- Atlantic includes Newfoundland and Labrador, Prince Edward Island, Nova Scotia, and New Brunswick.
- Registered or Treaty Indian status refers to whether or not a person reported being a Registered or Treaty Indian. Registered Indians are persons who are registered under the Indian Act of Canada. Treaty Indians are persons who belong to a First Nation or Indian band that signed a treaty with the Crown. Registered or Treaty Indians are sometimes also called Status Indians.
- Proxy reporting was used in the 2012 Aboriginal Peoples Survey for nearly half of youth aged 15 to 17 years and for adults in certain specific situations (for example when the selected adult was not able to answer for health related reasons, due to a language barrier, or because the selected respondent was going to be away from home for the duration of the survey.)
- All percentages for the variable "smoking status" are calculated using the number of persons in "total, smoking status" as denominator.
- Respondents were asked the following question: "At the present time, do you smoke cigarettes daily, occasionally or not at all?".
- "Smoker" refers to smokers of cigarettes only.
- Non-smokers, in other words those persons who answered "Not at all" to the question "At the present time, do you smoke cigarettes daily, occasionally or not at all?", were asked: "Including both household members and regular visitors, does anyone smoke inside your home, every day or almost every day?". This included current non-smokers who did not live with at least one other person.
- Second-hand smoke includes smoke from cigarettes, cigars and pipes.
- "Not specified" categories consist of item non-response ("Refusal", "Don't know", and "Not stated").
- Bootstrapping techniques were used to produce the coefficient of variation (CV).
- Data with a coefficient of variation (CV) from 16.6% to 33.3% are identified by an (E) and should be interpreted with caution.
- Data with a coefficient of variation (CV) greater than 33.3% were suppressed (F) due to extreme sampling variability.
