

SEX BY MARITAL STATUS FOR THE POPULATION 15 YEARS AND OVER
Universe: Population 15 years and over
2014 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

	Alaska	
	Estimate	Margin of Error
1 - Total:	579,778	+/-1,194
19 - Male:	305,440	+/-1,713
19 - Never married	117,205	+/-4,109
Now married:	150,848	+/-4,485
Married, spouse present	130,513	+/-4,084
Married, spouse absent:	20,335	+/-1,878
Separated	4,750	+/-1,055
Other	15,585	+/-1,594
Widowed	5,830	+/-1,200
Divorced	31,557	+/-2,236
Female:	274,338	+/-1,697
Never married	83,733	+/-3,142
Now married:	138,226	+/-3,803
Married, spouse present	124,475	+/-3,680
Married, spouse absent:	13,751	+/-1,859
Separated	5,563	+/-1,153
Other	8,188	+/-1,456
Widowed	15,766	+/-1,374
Divorced	36,613	+/-2,660

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
