The education and training programmes are classified according to the international standard ISCED2011. For further information please see our recent publication on education, which can be found at: www.stat.gl

This table has been updated compared to the previous years tables for abandoned education and training programmes. The table now includes e.g. completed basic courses or changes in schools without changing the education or training time: Figures for the years 2003-2013 are final figures while they for the years 2014-2016 are preliminary figures.

age: At the time of abandon.

level: ISCED2011-level short-cycle tertiary education includes an internship period and therefore all education and training programmes on this level is considered as being vocational. The education statistics are based on administrative data from the Study Grant Administration and in this the Ph.D. and doctorate level is not included.

Latest update: 20170619

Source: Statistics Greenland

Units: Number of education and training programmes
