

EDUCATIONAL ATTAINMENT FOR THE POPULATION 25 YEARS AND OVER
Universe: Population 25 years and over
2014 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:
2014
2013
2012
2011
2010
2009
2008

1 - 25 of 25	Alaska	
	Estimate	Margin of Error
Total:	465,149	+/-2,124
No schooling completed	3,281	+/-775
Nursery school	128	+/-136
Kindergarten	145	+/-122
1st grade	13	+/-22
2nd grade	577	+/-362
3rd grade	930	+/-498
4th grade	822	+/-396
5th grade	1,193	+/-538
6th grade	1,399	+/-535
7th grade	1,079	+/-457
8th grade	3,058	+/-652
9th grade	3,623	+/-848
10th grade	6,027	+/-899
11th grade	6,447	+/-1,195
12th grade, no diploma	4,531	+/-1,113
Regular high school diploma	108,523	+/-4,395
GED or alternative credential	23,464	+/-1,851
Some college, less than 1 year	35,472	+/-2,893
Some college, 1 or more years, no degree	96,087	+/-5,016
Associate's degree	38,086	+/-2,849
Bachelor's degree	85,634	+/-3,613
Master's degree	33,103	+/-2,734
Professional school degree	7,223	+/-1,319
Doctorate degree	4,304	+/-910

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
