

POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY HOUSEHOLD TYPE BY EDUCATIONAL ATTAINMENT OF HOUSEHOLDER

Universe: Families

2014 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

	Alaska	
	Estimate	Margin of Error
Total:	165,015	+/-3,765
Income in the past 12 months below poverty level:	12,999	+/-1,612
Married-couple family:	4,885	+/-1,020
Less than high school graduate	742	+/-444
High school graduate (includes equivalency)	1,803	+/-551
Some college, associate's degree	1,911	+/-749
Bachelor's degree or higher	429	+/-251
Other families:	8,114	+/-1,333
Male householder, no wife present:	2,317	+/-642
Less than high school graduate	365	+/-168
High school graduate (includes equivalency)	1,375	+/-587
Some college, associate's degree	520	+/-253
Bachelor's degree or higher	57	+/-76
Female householder, no husband present:	5,797	+/-1,159
Less than high school graduate	1,214	+/-534
High school graduate (includes equivalency)	2,545	+/-796
Some college, associate's degree	1,703	+/-403
Bachelor's degree or higher	335	+/-186
Income in the past 12 months at or above poverty level:	152,016	+/-3,662
Married-couple family:	119,143	+/-3,424
Less than high school graduate	4,176	+/-788
High school graduate (includes equivalency)	22,657	+/-2,015
Some college, associate's degree	50,181	+/-2,958
Bachelor's degree or higher	42,129	+/-2,468
Other families:	32,873	+/-3,004
Male householder, no wife present:	12,349	+/-1,870
Less than high school graduate	861	+/-327
High school graduate (includes equivalency)	3,302	+/-791
Some college, associate's degree	5,646	+/-1,263
Bachelor's degree or higher	2,540	+/-789
Female householder, no husband present:	20,524	+/-2,120
Less than high school graduate	1,791	+/-481
High school graduate (includes equivalency)	4,634	+/-1,002
Some college, associate's degree	9,199	+/-1,474
Bachelor's degree or higher	4,900	+/-1,168

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
