

POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY HOUSEHOLD TYPE BY TENURE
Universe: Families
2014 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

2011
2010
2009
2008
2007
2006
2005

	Alaska	
	Estimate	Margin of Error
1 - Total:	165,015	+/-3,765
23 - Income in the past 12 months below poverty level:	12,999	+/-1,612
23 - Married-couple family:	4,885	+/-1,020
Owner occupied	2,675	+/-602
Renter occupied	2,210	+/-840
Other families:	8,114	+/-1,333
Male householder, no wife present:	2,317	+/-642
Owner occupied	995	+/-413
Renter occupied	1,322	+/-489
Female householder, no husband present:	5,797	+/-1,159
Owner occupied	1,624	+/-500
Renter occupied	4,173	+/-1,011
Income in the past 12 months at or above poverty level:	152,016	+/-3,662
Married-couple family:	119,143	+/-3,424
Owner occupied	88,510	+/-3,422
Renter occupied	30,633	+/-2,807
Other families:	32,873	+/-3,004
Male householder, no wife present:	12,349	+/-1,870
Owner occupied	7,290	+/-1,386
Renter occupied	5,059	+/-1,168
Female householder, no husband present:	20,524	+/-2,120
Owner occupied	11,820	+/-1,407
Renter occupied	8,704	+/-1,526

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
