

**SEX BY CLASS OF WORKER AND MEDIAN EARNINGS IN THE PAST 12 MONTHS (IN 2014
INFLATION-ADJUSTED DOLLARS) FOR THE CIVILIAN EMPLOYED POPULATION 16 YEARS AND
OVER**

**Universe: Civilian employed population 16 years and over with earnings
2014 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
1 - 18 of 18		
Male:	50,591	+/-1,291
Private for-profit wage and salary workers:	48,141	+/-3,139
Employee of private company workers	46,363	+/-2,945
Self-employed in own incorporated business workers	70,672	+/-17,998
Private not-for-profit wage and salary workers	50,334	+/-8,506
Local government workers	58,885	+/-7,147
State government workers	61,654	+/-3,649
Federal government workers	61,003	+/-4,111
Self-employed in own not incorporated business workers and unpaid family workers	33,326	+/-6,609
Female:	35,300	+/-1,113
Private for-profit wage and salary workers:	30,420	+/-1,179
Employee of private company workers	30,286	+/-1,330
Self-employed in own incorporated business workers	35,839	+/-20,336
Private not-for-profit wage and salary workers	41,564	+/-2,073
Local government workers	41,329	+/-5,523
State government workers	49,572	+/-4,607
Federal government workers	47,368	+/-4,629
Self-employed in own not incorporated business workers and unpaid family workers	21,318	+/-1,548

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
