

**TENURE BY AGE OF HOUSEHOLDER**  
**Universe: Occupied housing units**  
**2014 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

1 - 21 of 21		Alaska	
		Estimate	Margin of Error
	Total:	249,659	+/-2,978
	Owner occupied:	156,006	+/-4,250
	Householder 15 to 24 years	1,458	+/-699
	Householder 25 to 34 years	18,018	+/-1,759
	Householder 35 to 44 years	26,907	+/-2,024
	Householder 45 to 54 years	36,802	+/-1,941
	Householder 55 to 59 years	20,859	+/-1,549
	Householder 60 to 64 years	18,137	+/-1,563
	Householder 65 to 74 years	23,088	+/-1,322
	Householder 75 to 84 years	8,740	+/-1,074
	Householder 85 years and over	1,997	+/-528
	Renter occupied:	93,653	+/-4,082
	Householder 15 to 24 years	14,879	+/-2,048
	Householder 25 to 34 years	26,581	+/-2,263
	Householder 35 to 44 years	17,230	+/-1,905
	Householder 45 to 54 years	15,102	+/-1,881
	Householder 55 to 59 years	7,683	+/-1,401
	Householder 60 to 64 years	5,007	+/-893
	Householder 65 to 74 years	3,994	+/-947
	Householder 75 to 84 years	1,932	+/-578
	Householder 85 years and over	1,245	+/-423

**Explanation of Symbols:**

An '\*\*\*' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '\*\*\*\*' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '\*\*\*\*\*' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
