

SCHOOL ENROLLMENT BY DETAILED LEVEL OF SCHOOL FOR THE POPULATION 3 YEARS AND OVER (AMERICAN INDIAN AND ALASKA NATIVE ALONE)

**Universe: American Indian and Alaska Native alone population 3 years and over
2014 American Community Survey 1-Year Estimates**

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:
2014
2013
2012
2011
2010
2009
2008

	Alaska	
	Estimate	Margin of Error
Total:	98,034	+/-3,134
Enrolled in school:	30,151	+/-1,731
Enrolled in nursery school, preschool	2,456	+/-566
Enrolled in kindergarten	2,239	+/-524
Enrolled in grade 1	1,757	+/-433
Enrolled in grade 2	1,972	+/-417
Enrolled in grade 3	2,129	+/-519
Enrolled in grade 4	1,741	+/-368
Enrolled in grade 5	1,781	+/-401
Enrolled in grade 6	1,717	+/-507
Enrolled in grade 7	1,370	+/-374
Enrolled in grade 8	1,885	+/-408
Enrolled in grade 9	1,835	+/-439
Enrolled in grade 10	1,691	+/-312
Enrolled in grade 11	1,965	+/-448
Enrolled in grade 12	2,072	+/-596
Enrolled in college, undergraduate years	2,704	+/-523
Graduate or professional school	837	+/-566
Not enrolled in school	67,883	+/-2,554

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
