

TENURE BY FAMILIES AND PRESENCE OF OWN CHILDREN
Universe: Occupied housing units
2014 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

2014

2006
2005

	Alaska	
	Estimate	Margin of Error
1 -		
17		
17		
Total:	249,659	+/-2,978
Owner-occupied housing units:	156,006	+/-4,250
With related children under 18:	53,211	+/-2,872
With own children under 18:	48,601	+/-2,688
Under 6 years only	8,618	+/-1,280
Under 6 years and 6 to 17 years	11,135	+/-1,506
6 to 17 years	28,848	+/-1,904
No own children under 18	4,610	+/-757
No related children under 18	102,795	+/-3,366
Renter-occupied housing units:	93,653	+/-4,082
With related children under 18:	34,632	+/-2,630
With own children under 18:	32,861	+/-2,553
Under 6 years only	12,091	+/-1,735
Under 6 years and 6 to 17 years	6,471	+/-1,075
6 to 17 years	14,299	+/-1,843
No own children under 18	1,771	+/-552
No related children under 18	59,021	+/-3,449

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.
