## Footnotes:

1. Source: Aboriginal Peoples Survey 2012.
2. Excludes persons living on Indian reserves or settlements, and persons who were attending high school (grades 7 to 12 or equivalent) at the time of the survey.
3. Aboriginal identity includes persons living off reserve who reported being an Aboriginal person, that is, First Nations (North American Indian), Métis or Inuk (Inuit) and/or those who reported Registered or Treaty Indian status, that is registered under the Indian Act of Canada, and/or those who reported membership in a First Nation or Indian band. The sum of the categories included in this variable is greater than the total population estimate for Aboriginal identity because a person may have reported more than one Aboriginal identity: for example, a person could self-identify as both First Nations and Métis.
4. Atlantic includes Newfoundland and Labrador, Prince Edward Island, Nova Scotia, and New Brunswick.
5. Registered or Treaty Indian status refers to whether or not a person reported being a Registered or Treaty Indian. Registered Indians are persons who are registered under the Indian Act of Canada. Treaty Indians are persons who belong to a First Nation or Indian band that signed a treaty with the Crown. Registered or Treaty Indians are sometimes also called Status Indians.
6. Proxy reporting was used in the 2012 Aboriginal Peoples Survey for nearly half of youth aged 15 to 17 years and for adults in certain specific situations (for example when the selected adult was not able to answer for health related reasons, due to a language barrier, or because the selected respondent was going to be away from home for the duration of the survey.)
7. Includes General Educational Development (GED) and Adult Basic Education (ABE).
8. "Not specified" categories consist of item non-response ("Refusal", "Don't know", and "Not stated").
9. Includes persons aged 15 to 44 who indicated that they were "home schooled" because they were not asked any follow-up questions on level of educational attainment.
10. Postsecondary education consists of any education above the high school level that could be counted towards a certificate, diploma or degree from an educational institution such as a university, a college, CEGEP or other non-university institution, or a trade school. Persons whose postsecondary education consists only of a college, CEGEP, or other non-university certificate or diploma program of less than 3 months are not considered to have any postsecondary education.
11. Bootstrapping techniques were used to produce the coefficient of variation (CV) and 95% confidence intervals (CIs).
12. Data with a coefficient of variation (CV) from 16.6% to 33.3% are identified by an (E) and should be interpreted with caution.
13. Data with a coefficient of variation (CV) greater than 33.3% were suppressed (F) due to extreme sampling variability.
