- Aggregate 91A combines the North American Industry Classification System (NAICS) codes 913, 914.
- On June 22, 2015, provincial and territorial values for special aggregates (tabulations T002 through T016) were corrected for 2014 and subsequently revised in November, 2015 as part of the annual revision.
- Industry 112A combines the North American Industry Classification System (NAICS) code 112, excluding 1125.
- With the November 10, 2015 release, the industry structure shows the Aquaculture industry (NAICS 1125) and Animal production (excluding aquaculture) (Industry 112A) separately, which were previously combined under the Animal production industry (NAICS 112).
- The November 10, 2015 release incorporates comprehensive revisions to the provincial-territorial estimates of gross domestic product by industry for reference years 2007 to 2014. For more information on the source of these changes, consult the information found at Latest Developments in the Canadian Economic Accounts in the system of macroeconomic accounts module at <http://www.statcan.gc.ca/pub/13-605-x/2015003/article/14153-eng.htm>.
- As part of the 2015 comprehensive revision of the Canadian System of Macroeconomic Accounts (CSMA), the provincial-territorial Gross Domestic Product (GDP) by industry data in chained (2007) dollars for the period 1997 to 2006 have been released on December 15, 2015. The data for the period 1997 to 2006 have been aligned with those published on November 10, 2015 for the period 2007 to 2014. In addition, the chained (2007) dollars for the provincial and territorial GDP for the following three aggregates were revised for the period 2007-2014 vis-à-vis those released on November 10, 2015: information and communication technology-total, information and communication technology-manufacturing, and information and communication technology-services. The growth rates for these three series for the 2008-2014 period were unaffected.
- Contributions to percentage change (CPC) in real gross domestic product (GDP) show how much each industry contributed to the total percent increase or decrease in GDP of a province or territory's economy. These should not be interpreted as proportions of GDP. They are presented directly as a contribution in percentage points of the underlying components to the total economy. For additional information please consult : http://www.statcan.gc.ca/eng/nea/gloss/gloss_c#Contributiontopercentagechanges.
