<sup>1</sup> As from 2015, the statistics are based on new data sources. The total employment figure for the fourth quarter of 2015 is 60 000 lower than in the Labour Force Survey (LFS). The total figure in these two statistics was coordinated in previous years, thus showing the same number of employees.

<sup>2</sup> Note that Svalbard, Jan Mayen and the continental shelf are included in "total employment" for the country as a whole. The sum of the counties is thus not equal to the total.
