

MEDIAN INCOME IN THE PAST 12 MONTHS (IN 2015 INFLATION-ADJUSTED DOLLARS)
2015 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years: 2015 2014 2013 2012 2011 2010 2009 2008 2007 2006 2005	1 - 30 of 30	Alaska				
		Subject	Total		Median income (dollars)	
			Estimate	Margin of Error	Estimate	Margin of Error
		Households	250,185	+/-2,685	73,355	+/-2,316
		One race--				
		White	74.5%	+/-0.9	81,159	+/-2,437
		Black or African American	3.4%	+/-0.4	52,562	+/-4,837
		American Indian and Alaska Native	10.5%	+/-0.6	45,090	+/-3,425
		Asian	4.3%	+/-0.5	67,405	+/-6,854
		Native Hawaiian and Other Pacific Islander	N	N	60,263	+/-50,690
		Some other race	N	N	52,372	+/-16,731
		Two or more races	5.3%	+/-0.5	66,366	+/-8,919
		Hispanic or Latino origin (of any race)	5.8%	+/-0.6	63,937	+/-9,506
		White alone, not Hispanic or Latino	71.1%	+/-1.0	81,711	+/-2,349
		HOUSEHOLD INCOME BY AGE OF HOUSEHOLDER				
		15 to 24 years	5.5%	+/-0.7	40,192	+/-2,563
		25 to 44 years	37.3%	+/-1.0	74,592	+/-3,209
		45 to 64 years	40.8%	+/-1.0	85,821	+/-3,996
		65 years and over	16.5%	+/-0.6	56,421	+/-4,230
		FAMILIES				
		Families	163,800	+/-3,113	86,376	+/-3,414
		With own children of householder under 18 years	47.6%	+/-1.8	75,490	+/-4,737
		With no own children of householder under 18 years	52.4%	+/-1.8	95,462	+/-3,036
		Married-couple families	73.5%	+/-1.5	101,196	+/-2,111
		Female householder, no husband present	17.3%	+/-1.3	42,681	+/-4,958
		Male householder, no wife present	9.2%	+/-0.9	52,050	+/-10,649
		NONFAMILY HOUSEHOLDS				
		Nonfamily households	86,385	+/-3,614	46,933	+/-4,007
		Female householder	41.8%	+/-2.1	40,760	+/-1,849
		Living alone	33.6%	+/-2.1	35,446	+/-3,689
		Not living alone	8.2%	+/-1.4	80,104	+/-6,951
		Male householder	58.2%	+/-2.1	55,568	+/-4,862
		Living alone	43.7%	+/-2.8	46,473	+/-7,216
		Not living alone	14.5%	+/-1.9	84,642	+/-8,581
		PERCENT IMPUTED				
		Household income in the past 12 months	32.8%	(X)	(X)	(X)
		Family income in the past 12 months	33.3%	(X)	(X)	(X)
		Nonfamily income in the past 12 months	28.8%	(X)	(X)	(X)

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not

represented in these tables.

While the 2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
