

POVERTY STATUS IN THE PAST 12 MONTHS OF FAMILIES BY FAMILY TYPE BY PRESENCE OF RELATED CHILDREN UNDER 18 YEARS BY AGE OF RELATED CHILDREN (AMERICAN INDIAN AND ALASKA NATIVE ALONE)
: Families with a householder who is American Indian and Alaska Native alone
2015 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

1 41 of 41	Alaska	
	Estimate	Margin of Error
	Total:	19,449 +/-1,290
	Income in the past 12 months below poverty level:	3,896 +/-619
	Married-couple family:	1,089 +/-475
	With related children of the householder under 18 years:	922 +/-442
	Under 5 years only	37 +/-31
	Under 5 years and 5 to 17 years	699 +/-440
	5 to 17 years only	186 +/-71
	No related children of the householder under 18 years	167 +/-165
	Other family:	2,807 +/-457
	Male householder, no wife present:	1,264 +/-354
	With related children of the householder under 18 years:	1,066 +/-300
	Under 5 years only	360 +/-238
	Under 5 years and 5 to 17 years	302 +/-94
	5 to 17 years only	404 +/-143
	No related children of the householder under 18 years	198 +/-156
	Female householder, no husband present:	1,543 +/-299
	With related children of the householder under 18 years:	1,351 +/-237
	Under 5 years only	378 +/-194
	Under 5 years and 5 to 17 years	480 +/-108
	5 to 17 years only	493 +/-145
	No related children of the householder under 18 years	192 +/-128
	Income in the past 12 months at or above poverty level:	15,553 +/-1,120
	Married-couple family:	8,430 +/-915
	With related children of the householder under 18 years:	4,284 +/-713
	Under 5 years only	592 +/-277
	Under 5 years and 5 to 17 years	1,534 +/-396
	5 to 17 years only	2,158 +/-523
	No related children of the householder under 18 years	4,146 +/-663
	Other family:	7,123 +/-955
	Male householder, no wife present:	2,091 +/-516
	With related children of the householder under 18 years:	1,133 +/-426
	Under 5 years only	139 +/-64
	Under 5 years and 5 to 17 years	237 +/-111
	5 to 17 years only	757 +/-421
	No related children of the householder under 18 years	958 +/-250
	Female householder, no husband present:	5,032 +/-889
	With related children of the householder under 18 years:	3,515 +/-761
	Under 5 years only	576 +/-335
	Under 5 years and 5 to 17 years	738 +/-269
	5 to 17 years only	2,201 +/-652
	No related children of the householder under 18 years	1,517 +/-408

Explanation of Symbols:

- An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
- An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
- An 'L' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
- An 'U' following a median estimate means the median falls in the upper interval of an open-ended distribution.
- An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
- An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
- An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
- An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
