

PRIVATE HEALTH INSURANCE STATUS BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2015 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

2015
[2014](#)
[2013](#)
[2012](#)
[2011](#)
[2010](#)

	Alaska	
	Estimate	Margin of Error
Total:	713,082	+/-1,787
Male:	367,289	+/-2,444
Under 6 years:	33,698	+/-1,496
With private health insurance	18,459	+/-1,545
No private health insurance	15,239	+/-1,436
6 to 17 years:	62,128	+/-1,664
With private health insurance	37,679	+/-2,436
No private health insurance	24,449	+/-2,535
18 to 24 years:	40,434	+/-1,519
With private health insurance	26,314	+/-1,662
No private health insurance	14,120	+/-1,564
25 to 34 years:	56,423	+/-1,943
With private health insurance	36,688	+/-2,229
No private health insurance	19,735	+/-1,823
35 to 44 years:	44,642	+/-1,509
With private health insurance	32,715	+/-1,869
No private health insurance	11,927	+/-1,428
45 to 54 years:	46,999	+/-1,346
With private health insurance	34,167	+/-1,453
No private health insurance	12,832	+/-1,405
55 to 64 years:	48,220	+/-827
With private health insurance	36,620	+/-1,410
No private health insurance	11,600	+/-1,096
65 to 74 years:	24,693	+/-715
With private health insurance	16,519	+/-1,090
No private health insurance	8,174	+/-1,035
75 years and over:	10,052	+/-395
With private health insurance	6,325	+/-836
No private health insurance	3,727	+/-785
Female:	345,793	+/-1,921
Under 6 years:	32,218	+/-1,494
With private health insurance	17,610	+/-1,557
No private health insurance	14,608	+/-1,512
6 to 17 years:	57,873	+/-1,480
With private health insurance	35,462	+/-2,057
No private health insurance	22,411	+/-2,085
18 to 24 years:	33,290	+/-868
With private health insurance	22,241	+/-1,370
No private health insurance	11,049	+/-1,416
25 to 34 years:	53,261	+/-1,487
With private health insurance	36,680	+/-1,418
No private health insurance	16,581	+/-1,366
35 to 44 years:	43,754	+/-1,221
With private health insurance	30,798	+/-1,754
No private health insurance	12,956	+/-1,700
45 to 54 years:	44,535	+/-1,066
With private health insurance	33,071	+/-1,528
No private health insurance	11,464	+/-1,248
55 to 64 years:	45,521	+/-927
With private health insurance	34,521	+/-1,202
No private health insurance	11,000	+/-1,143
65 to 74 years:	23,098	+/-936
With private health insurance	15,111	+/-1,074
No private health insurance	7,987	+/-1,022
75 years and over:	12,243	+/-644
With private health insurance	6,993	+/-894
No private health insurance	5,250	+/-905

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '!' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '!' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '**' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see http://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <http://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See http://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

While the 2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
