

EMPLOYER-BASED HEALTH INSURANCE BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2015 American Community Survey 1-Year Estimates

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

Versions of this table are available for the following years:

2015
[2014](#)
[2013](#)
[2012](#)
[2011](#)
[2010](#)

	Alaska	
	Estimate	Margin of Error
Total:	713,082	+/-1,787
Male:	367,289	+/-2,444
Under 6 years:	33,698	+/-1,496
With employer-based health insurance	13,616	+/-1,553
No employer-based health insurance	20,082	+/-1,814
6 to 17 years:	62,128	+/-1,664
With employer-based health insurance	30,765	+/-2,505
No employer-based health insurance	31,363	+/-2,534
18 to 24 years:	40,434	+/-1,519
With employer-based health insurance	21,600	+/-1,693
No employer-based health insurance	18,834	+/-1,820
25 to 34 years:	56,423	+/-1,943
With employer-based health insurance	30,652	+/-2,306
No employer-based health insurance	25,771	+/-2,115
35 to 44 years:	44,642	+/-1,509
With employer-based health insurance	26,777	+/-2,012
No employer-based health insurance	17,865	+/-1,877
45 to 54 years:	46,999	+/-1,346
With employer-based health insurance	29,696	+/-1,519
No employer-based health insurance	17,303	+/-1,602
55 to 64 years:	48,220	+/-827
With employer-based health insurance	30,897	+/-1,546
No employer-based health insurance	17,323	+/-1,330
65 to 74 years:	24,693	+/-715
With employer-based health insurance	13,785	+/-1,138
No employer-based health insurance	10,908	+/-1,074
75 years and over:	10,052	+/-395
With employer-based health insurance	4,533	+/-787
No employer-based health insurance	5,519	+/-818
Female:	345,793	+/-1,921
Under 6 years:	32,218	+/-1,494
With employer-based health insurance	14,017	+/-1,584
No employer-based health insurance	18,201	+/-1,680
6 to 17 years:	57,873	+/-1,480
With employer-based health insurance	28,237	+/-2,129
No employer-based health insurance	29,636	+/-2,260
18 to 24 years:	33,290	+/-868
With employer-based health insurance	17,435	+/-1,598
No employer-based health insurance	15,855	+/-1,536
25 to 34 years:	53,261	+/-1,487
With employer-based health insurance	29,016	+/-1,696
No employer-based health insurance	24,245	+/-1,719
35 to 44 years:	43,754	+/-1,221
With employer-based health insurance	24,699	+/-1,852
No employer-based health insurance	19,055	+/-2,021
45 to 54 years:	44,535	+/-1,066
With employer-based health insurance	29,034	+/-1,485
No employer-based health insurance	15,501	+/-1,463
55 to 64 years:	45,521	+/-927
With employer-based health insurance	28,191	+/-1,319
No employer-based health insurance	17,330	+/-1,424
65 to 74 years:	23,098	+/-936
With employer-based health insurance	11,922	+/-1,099
No employer-based health insurance	11,176	+/-1,143
75 years and over:	12,243	+/-644
With employer-based health insurance	4,684	+/-854
No employer-based health insurance	7,559	+/-970

Explanation of Symbols:

An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '!' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '!' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '**' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see http://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at <http://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html>. The health insurance coverage category names were modified in 2010. See http://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

While the 2015 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
