	67+ years	7.9	105.4	39.7	95.6

Pensioners as of December the current year. Figures do not include child pensioners, partial retirement pensioners or recipients of survivor's pension. Since pensioners in all Nordic countries can be living abroad and still receive pensions, percentages can exceed 100. Rounding off to 1000s may also result in a total that is different from 100 per cent.

Iceland: Age group 18-39
