Universe: Population 16 years and over
2016 American Community Survey 1-Year Estimates

Tell us what you think. [Provide feedback to help make American Community Survey data more useful for you.](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

	Alaska	
	Estimate	Margin of Error
1 - Total:	575,088	+/-1,406
56 - Never married:	201,280	+/-5,311
56 - Male:	120,333	+/-3,979
In labor force:	86,916	+/-3,913
Employed or in Armed Forces	75,691	+/-3,602
Unemployed	11,225	+/-2,094
Not in labor force	33,417	+/-2,504
Female:	80,947	+/-3,195
In labor force:	57,094	+/-3,031
Employed or in Armed Forces	50,322	+/-2,945
Unemployed	6,772	+/-1,245
Not in labor force	23,853	+/-2,109
Now married (except separated):	277,447	+/-7,178
Male:	141,748	+/-4,011
In labor force:	111,706	+/-4,330
Employed or in Armed Forces	106,941	+/-4,264
Unemployed	4,765	+/-1,202
Not in labor force	30,042	+/-2,181
Female:	135,699	+/-4,551
In labor force:	89,116	+/-4,026
Employed or in Armed Forces	85,274	+/-3,982
Unemployed	3,842	+/-865
Not in labor force	46,583	+/-2,742
Separated:	10,560	+/-1,669
Male:	5,196	+/-1,215
In labor force:	3,819	+/-1,145
Employed or in Armed Forces	3,546	+/-1,132
Unemployed	273	+/-211
Not in labor force	1,377	+/-597
Female:	5,364	+/-1,149
In labor force:	4,379	+/-1,053
Employed or in Armed Forces	4,086	+/-1,038
Unemployed	293	+/-167
Not in labor force	985	+/-430
Widowed:	20,457	+/-1,659
Male:	5,596	+/-1,005
In labor force:	2,161	+/-723
Employed or in Armed Forces	2,001	+/-712
Unemployed	160	+/-153
Not in labor force	3,435	+/-754
Female:	14,861	+/-1,435
In labor force:	3,526	+/-736
Employed or in Armed Forces	3,293	+/-713
Unemployed	233	+/-144
Not in labor force	11,335	+/-1,189
Divorced:	65,344	+/-4,404
Male:	29,765	+/-2,548
In labor force:	20,427	+/-2,183
Employed or in Armed Forces	18,422	+/-2,217
Unemployed	2,005	+/-787
Not in labor force	9,338	+/-1,418
Female:	35,579	+/-3,036
In labor force:	24,634	+/-2,286
Employed or in Armed Forces	23,238	+/-2,233
Unemployed	1,396	+/-480
Not in labor force	10,945	+/-1,627

Explanation of Symbols:

An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
