

TENURE BY HOUSEHOLD TYPE (INCLUDING LIVING ALONE) AND AGE OF HOUSEHOLDER

**Universe: Occupied housing units
2016 American Community Survey 1-Year Estimates**

Tell us what you think. [Provide feedback to help make American Community Survey data more useful for you.](#)

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the [Data and Documentation](#) section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the [Methodology](#) section.

1 49 of 49	Alaska	
	Estimate	Margin of Error
Total:	248,468	+/-2,841
Owner occupied:	160,215	+/-3,268
Family households:	118,741	+/-2,970
Married-couple family:	96,293	+/-3,130
Householder 15 to 34 years	11,872	+/-1,637
Householder 35 to 64 years	65,875	+/-3,033
Householder 65 years and over	18,546	+/-1,281
Other family:	22,448	+/-2,495
Male householder, no wife present:	8,080	+/-1,360
Householder 15 to 34 years	756	+/-414
Householder 35 to 64 years	6,172	+/-1,281
Householder 65 years and over	1,152	+/-412
Female householder, no husband present:	14,368	+/-1,876
Householder 15 to 34 years	1,492	+/-542
Householder 35 to 64 years	9,347	+/-1,457
Householder 65 years and over	3,529	+/-880
Nonfamily households:	41,474	+/-2,708
Householder living alone:	31,747	+/-2,271
Householder 15 to 34 years	3,227	+/-840
Householder 35 to 64 years	16,582	+/-1,803
Householder 65 years and over	11,938	+/-1,376
Householder not living alone:	9,727	+/-1,690
Householder 15 to 34 years	2,149	+/-730
Householder 35 to 64 years	6,019	+/-1,491
Householder 65 years and over	1,559	+/-452
Renter occupied:	88,253	+/-3,611
Family households:	45,361	+/-2,827
Married-couple family:	25,875	+/-2,292
Householder 15 to 34 years	12,561	+/-1,743
Householder 35 to 64 years	12,042	+/-1,491
Householder 65 years and over	1,272	+/-492
Other family:	19,486	+/-2,085
Male householder, no wife present:	6,314	+/-1,174
Householder 15 to 34 years	2,576	+/-838
Householder 35 to 64 years	3,200	+/-826
Householder 65 years and over	538	+/-300
Female householder, no husband present:	13,172	+/-1,839
Householder 15 to 34 years	5,944	+/-1,317
Householder 35 to 64 years	6,681	+/-1,211
Householder 65 years and over	547	+/-244
Nonfamily households:	42,892	+/-3,186
Householder living alone:	30,735	+/-2,751
Householder 15 to 34 years	7,888	+/-1,298
Householder 35 to 64 years	16,936	+/-2,402
Householder 65 years and over	5,911	+/-1,113
Householder not living alone:	12,157	+/-1,815
Householder 15 to 34 years	8,708	+/-1,446
Householder 35 to 64 years	3,066	+/-732
Householder 65 years and over	383	+/-289

Explanation of Symbols:

An "***" entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.

An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see [Accuracy of the Data](#)). The effect of nonsampling error is not represented in these tables.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
