PRIVATE HEALTH INSURANCE STATUS BY SEX BY AGE
Universe: Civilian noninstitutionalized population
2016 American Community Survey 1-Year Estimates

Tell us what you think. Provide feedback to help make American Community Survey data more useful for you.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Versions of this table are available for the following years:

2016
2015
2014
2013
2012
2011
2010

	Alaska	
	Estimate	Margin of Error
Total:	718,419	+/-1,649
Male:	371,645	+/-2,505
Under 6 years:	31,511	+/-1,196
With private health insurance	17,080	+/-1,571
No private health insurance	14,431	+/-1,588
6 to 17 years:	67,659	+/-1,735
With private health insurance	43,128	+/-2,282
No private health insurance	24,531	+/-2,024
18 to 24 years:	37,131	+/-1,598
With private health insurance	24,890	+/-1,692
No private health insurance	12,241	+/-1,760
25 to 34 years:	56,692	+/-1,730
With private health insurance	36,482	+/-2,037
No private health insurance	20,210	+/-1,785
35 to 44 years:	43,976	+/-1,857
With private health insurance	31,050	+/-1,830
No private health insurance	12,926	+/-1,706
45 to 54 years:	48,061	+/-1,637
With private health insurance	35,997	+/-1,884
No private health insurance	12,064	+/-1,849
55 to 64 years:	49,440	+/-1,758
With private health insurance	37,756	+/-1,871
No private health insurance	11,684	+/-1,232
65 to 74 years:	27,030	+/-680
With private health insurance	17,477	+/-1,261
No private health insurance	9,553	+/-1,267
75 years and over:	10,145	+/-499
With private health insurance	7,012	+/-675
No private health insurance	3,133	+/-620
Female:	346,774	+/-2,479
Under 6 years:	31,184	+/-1,530
With private health insurance	18,983	+/-1,777
No private health insurance	12,201	+/-1,312
6 to 17 years:	56,485	+/-1,526
With private health insurance	34,847	+/-2,206
No private health insurance	21,638	+/-2,253
18 to 24 years:	31,003	+/-1,263
With private health insurance	21,228	+/-1,615
No private health insurance	9,775	+/-1,237
25 to 34 years:	56,830	+/-2,076
With private health insurance	36,319	+/-2,123
No private health insurance	20,511	+/-1,938
35 to 44 years:	45,163	+/-1,504
With private health insurance	32,546	+/-1,626
No private health insurance	12,617	+/-1,389
45 to 54 years:	43,186	+/-1,302
With private health insurance	31,584	+/-1,495
No private health insurance	11,602	+/-1,619
55 to 64 years:	45,702	+/-860
With private health insurance	34,858	+/-1,449
No private health insurance	10,844	+/-1,336
65 to 74 years:	24,784	+/-773
With private health insurance	15,376	+/-1,092
No private health insurance	9,408	+/-1,158

	Alaska	
	Estimate	**Margin of Error**
75 years and over:	12,437	+/-701
With private health insurance	6,784	+/-752
No private health insurance	5,653	+/-753

Explanation of Symbols:
An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Logical coverage edits applying a rules-based assignment of Medicaid, Medicare and military health coverage were added as of 2009 -- please see https://www.census.gov/library/working-papers/2010/demo/coverage_edits_final.html for more details. The 2008 data table in American FactFinder does not incorporate these edits. Therefore, the estimates that appear in these tables are not comparable to the estimates in the 2009 and later tables. Select geographies of 2008 data comparable to the 2009 and later tables are available at https://www.census.gov/data/tables/time-series/acs/1-year-re-run-health-insurance.html. The health insurance coverage category names were modified in 2010. See https://www.census.gov/topics/health/health-insurance/about/glossary.html#par_textimage_18 for a list of the insurance type definitions.

While the 2016 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.
